Notification

LD/1/96-L.A.B.

The Central Excise Tariff Act, 1985 (No. 5 of 1986) which was passed by Parliament and assented to by the President of India on 19th January, 1986 and published in the Gazette of India Extraordinary, Part II, Section 1 dated 20-1-86 is hereby republished for the general information.

B. S. Subbanna, Under Secretary to the Government of Goa, Daman and Diu.

Panaji, 18th March, 1986.

The Central Excise Tariff Act, 1985

AN ACT

to provide for tariff for Central duties of excise.

Be it enacted by Parliament in the Thirty-sixth Year of the Republic of the Republic of India as follows:—

- 1. Short title, extent and commencement. (1) This Act may be called the Central Excise Tariff Act. 1985.
 - (2) It extends to the whole of India.
- (3) It shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint.
- 2. Duties specified in the Schedule to be levied. The rates at which duties of excise shall be levied under the Central Excises and Salt Act, 1944 are specified 1 of 1944. in the Schedule.
- 3. Emergency power of Central Government to increase duty of excise. (1)

Where, in respect of any goods, the Central Government is satisfied that the duty leviable thereon under section 3 of the Central Excises and Salt Act, 1944 should be increased and that circumstances exist which render it necessary to take immediate action, the Central Government may, by notification in the Official Gazette, direct an amendment of the Schedule to be made so as to substitute for the rate of duty specified in the Schedule in respect of such goods,—

1 of 1944.

- (a) in a case where the rate of duty as specified in the Schedule as in force immediately before the issue of such notification is nil, a rate of duty not exceeding fifty per cent. ad valorem expressed in any form or method;
- (b) in any other case, rate of duty which shall not be more than twice the rate of duty specified in respect of such goods in the Schedule as in force immediately before the issue of the said notification:

Provided that the Central Government shall not issue any notification under this sub-section for substituting the rate of duty in respect of any goods as specified by an earlier notification issued under this sub-section by that Government before such earlier notification has been approved with or without modifications under sub-section (2).

Explanation.,—"Form or method", in relation to a rate of duty of excise, means the basis, namely, valuation, weight, number, length, area, volume or other measure with reference to which the duty may be levied.

(2) Every notification under sub-section (1) shall be laid before each House of Parliament, if it is sitting, as as soon as may be after the issue of the notification, and, if it is not sitting, within seven days of its re-assembly, and the Central Government shall seek the approval of Parliament to the notification by a resolution moved within a period of fifteen days beginning with the day on which the notification is so laid before the House of the People and if Parliament makes any modification in the notification or directs that the notification should cease to have effect, the notification shall thereafter

have effect only in such modified form or be of no effect as the case may be, but without prejudice to the validity of anything previously done thereunder.

- (3) For the removal of doubts, it is hereby declared that any notification issued under sub-section (1), including any such notification approved or modified under sub-section (2), may be rescinded by the Central Government at any time by notification in the Official Gazette.
- 4. Consequential amendments of, and construction of references, to, the First Schedule to, Act 1 of 1944. -(1) In the Central Excises and Salt Act, 1944,-
 - (a) for the words "First Schedule", wherever they occur, the words and figures. "Schedule to the Central Excise Tariff Act, 1985" shall be substituted:
 - (b) in section 2, for clause (f), the following clause shall be substituted, namely:-
 - '(f) "manufacture" includes any process,—
 - (i) incidental or ancillary to the completion of a manufactured product;
 - (ii) which is specified in relation to any goods in the Section or Chapter notes of the Schedule to the Central Excise Tariff Act, 1985 as amounting to manufacture,

and the word "manufacturer" shall be construed accordingly and shall include not only a person who employs hired labour in the production or manufacture of excisable goods, but also any person who engages in their production or manufacture on his own account;';

- (c) the First Schedule shall be omitted.
- (2) Any reference to the expression "First Schedule to the Central Excises and Salt Act, 1944" in any Central Act shali, on and after the commencement of this Act, be construed as a reference to the Schedule to this Act.

1 of 1944.

THE SCHEDULE

Excise tariff

(See section 2)

Rules for the interpretation of this Schedule

- 1. The titles of Sections and Chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes and, provided such headings or Notes do not otherwise require, according to the provisions hereinafter contained.
- 2. (a) Any reference in a heading to goods shall be taken to include a reference to that goods incomplete or unfinished, provided that, the incomplete or unfinished goods have the essential character or the complete or finished goods. It shall also be taken to include a reference to that goods complete or finished (or falling to be classified as complete or finished by virtue of this rule), removed unassembled or disassembled.
- (b) Any reference in a heading to a material or substance shall be taken to include a reference to

mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles contained in rule 3.

- 3. When by application of sub-rule (b) of rule 2 or for any other reason, goods are, prima facie, classifiable under two or more headings, classification shall be effected as follows:
 - (a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set, those headings are to be regarded as equally specific in relation to those goods even if one of them gives a more complete or precise description of the goods.
 - (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets, which cannot be classified by reference to (a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.
 - (c) When goods cannot be classified by reference to (a) or (b), they shall be classified under the heading which occurs last in the numerical order among these which equally merit consideration.
- 4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.
- 5. For legal purposes, the classification of goods in the sub-headings of a heading shall be determined according to the terms of those sub-headings and any related Chapter Notes and, mutatis mutandis, to the above rules, on the understanding that only sub-headings at the same level are comparable. For the purposes of this rule, the relative Section Notes also apply, unless the context otherwise requires.

General Explanatory Notes

- 1. Where in column (3) of this Schedule, the description of an article or group or articles under a heading is preceded by "-", the said article or group of articles shall be taken to be a sub-classification of the article or group of articles covered by the said heading. Where, however, the description of an article or group of articles is preceded by "--", the said article or group of articles shall be taken to be a sub-classification of the immediately preceding description of article or group of articles which has"—
- 2. The abbreviation "%" in column (4) of this Schedule in relation to the rate of duty indicates that duty on the goods to which the entry relates shall be charged on the basis of the value of the goods as defined in section 4 or the tariff value fixed under section 3 of the Central Excises and Salt Act, 1944 (1 of 1944), the duty being equal to such per-

centage of the value or tariff value as is indicated in that column.

SECTION I

Animal Products

Notes

- 1. Any reference in this Section to a particular genus or species of an animal, except where the context otherwise requires, includes a reference to the young of that genus or species.
- 2. Except where the context otherwise requires, throughout this Schedule any reference to "dried" products also covers products which have been dehydrated evaporated or freeze-dried.

CHAPTER 2

Meat and edible meat offal

Notes

- 1. This Chapter does not cover: -
- (a) Products of the kind unfit or unsuitable for human consumption;
- (b) Guts, bladders or stomachs of animals (Chapter 5) or animal blood (Chapter 5 or 30); or
 - (c) Animal fat, other than pig fat. (Chapter 15).
- 2. This Chapter covers products, which are chilled, frozen and salted, in brine, dried or smoked but not otherwise prepared.

CHAPTER 4

Dairy produce; edible products of animal origin, not elsewhere specified or included

- 1. The expression, "Milk" means full cream milk or partially or completly skimmed milk.
- 2. Products obtained by the concentration of whey and with the addition of milk or milkfat are to be classified as cheese in heading No. 04.03 provided that they have the three following characteristics:—
 - (a) a milkfat content, by weight of the dry matter, of 5 percent. or more;
 - (b) a dry matter content, by weight, of at least 70 per cent. but not exceeding 85 per cent.; and
 - (c) they are moulded or capable of being moulded.
- 3. In this Chapter, the expression, "unit container" means a container, whether large or small (for example, tin, can, box, jar, bottle, bag or carton, drum, barrel or canister), designed to hold a predetermined quantity or number.
- 4. Heading No. 04.04 applies, inter alia, to butter-Milk, curdled milk, cream, yogurt, whey, curd and products consisting of natural milk constituents, whether or not containing added sugar or other sweetening matter or flavoured or containing added fruit or cocoa.

SECTION II

Vegetable Products

Note

In this Section, the expression, 'unit container' means a container, whether large or small, (for example, tin, can, box, jar, bottle, bag or carton, drum, barrel or canister) designed to hold a predetermined quantity or number.

CHAPTER 7

Edible vegetables and roots and tubers

Notes

1. In this Chapter, the word "vegetables" includes edible mushrooms, truffles, olives, capers, marrows, pumpkins, aubergines, sweet corn (Zea mays var. saccharata), fruits of the genus Capsicum or of the genus Pimenta, fennel, parsley, chervil, tarragon,

cress and sweet marjoram (Majorana hortensis or Origanum majorana).

- 2. This Chapter covers all dried vegetables of the kinds other than:—
 - (a) sweet corn in the forms—flours,, groats, meal pellets, grains hulled, rolled, flaked pearled, sliced or kibbled (Chapter 11);
 - (b) flour, meal and flakes of potatoes (Chapter 11);
 - (c) flour and meal of dried leguminous vegetables (Chapter 11).
- 3. However, dried or crushed or ground fruits of the genus *Capsicum* or of the genus *Pimenta* are excluded from this Chapter (Chapter 9).

CHAPTER 15

Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes

- 1. This Chapter does not cover:
 - (a) Pig fat or poultry fat;
 - (b) Cocoa butter, fat and oil (Chapter 18);
 - (c) Edible preparations of Chapter 21;
 - (d) Greaves and residues of Chapter 23;
- (e) Fatty acids in an isolated state, prepared waxes, medicaments, paints, varnishes, soap, perfumery, cosmetic or toilet preparations, sulphonated oils or other goods of Section VI; or
 - (f) Factice derived from oils (Chapter 40).
- 2. Soap-stocks, oil foots and dregs, stearin pitch, glycerol pitch and wool grease residues fall in heading No. 1507.
- 3. In this Chapter, the expression 'fixed vegetable oils' means oils which cannot easily be distilled without decomposition, which are not volatile and which cannot be carried off by superheated steam (which decomposes and saponifies them).

CHAPTER 21

Miscellaneous edible preparations

- 1. This Chapter does not cover:
- (a) Yeast put up as a medicament or other products of Chapter 30;
 - (b) Prepared enzymes of Chapter 35.
- 2. For the purposes of heading No. 21.04, the expression "homogenised composite food preparations" means preparations consisting of a finely homogenised mixture of two or more basic ingredients such as meat, fish, vegetables or fruit, put up for retail sale as infant food or for dietetic purposes. For the application of this definition, no account is to be taken of small quantities of any ingredients which may be added to the mixture for seasoning, preservation or other purposes.
- 3. In this Chapter, 'Pan Masala' means any preparation containing betel nuts and any one or more of other ingredients such as lime, katha (catechu), cardamoni, copra, menthol and tobacco.
- 4. In this Chapter, 'brand name' means a brand name, whether registered or not, that is to say, a name or a mark, such as, a symbol, monogram, label, signature or invented words or any writing which is used in relation to a product, for the purpose of indicating, or so as to indicate, a connection in the course of trade between the product and some person using such name or mark with or without any indication of the identity of that person.
 - 5. Heading No. 21.07, inter alia includes:
 - (a) protein concentrates and textured protein substances;
 - (b) preparations for use, either directly or after processing (such as cooking; dissolving or boiling in water, milk or other liquids), for human consumption:
 - (c) preparations consisting wholly or partly of foodstuffs, used in the making of beverages or food preparations for human consumption:
 - (d) powders for table creams, jellies, ice-creams and similar preparations, whether or not sweete-
 - (e) flavouring powders for making beverages, whether or not sweetened;
 - (f) peanut butter;

- (g) preparations consisting of tea or coffee and milk powder, sugar and any other added ingre-
- (h) preparations (for example, tablets) consisting of saccharin and a foodstuff, such as lactose, used for sweetening purposes;
- (i) pre-cooked rice cooked either fully or par-
- eracolded ruit lded

ges lou: con juic	(j) preparations for lemonades or other beverages, consisting, for example, of: flavoured or coloured syrups, syrup flavoured with an added concentrated extract, syrup flavoured with fruit juices and concentrated fruit juice with addeding redients.

CHAPTER 24

Tobacco and manufactured tobacco substitutes

Notes

1. In this Chapter, 'brand name' means a brand name, whether registered or not, that is to say, a name or a mark, such a symbol, monogram, label, signature or invented words or any writing which

is used in relation to a product, for the purpose of indicating, or so as to indicate, a connection in the course of trade between the product and some person using such name or mark with or without any indication of the identity of that person.

- 2. In relation to products of headings Nos. 24.02, 24.03 and 24.04, labelling or relabelling of containers and repacking from bulk packs to retail packs or the adoption of any other treatment to render the product marketable to the consumer, shall amount to 'manufacture'.
- 3. In this Chapter, "Tobacco" means any form of tobacco, whether cured or uncured and whether manufactured or not, and includes the leaf, stalks and stems of the tobacco plant, but does not include any part of a tobacco plant while still attached to the earth.

Mineral products.

CHAPTER 25

Salt; sulphur; clay and stone; plastering materials; lime and cement

Notes

- 1. This Chapter does not cover:
- (a) Sublimed sulphur, precipitated sulphur, colloidal sulphur; earth colours, containing 70 per cent. or more by weight of combined iron, of Chapter 28;
- (b) Medicaments and other products of Chapter 30;
- (c) Perfumery, cosmetic or toilet preparations of Chapter 33;
- (d) Setts, curbstones or flagstones; mosaic cubes or the like; roofing, facing or damp course slates of Chapter 68;
- (e) Precious or semi-precious stones of Chapter 71;

- (f) Cultured crystals of Chapter 38; optical elements of Chapter 90;
 - (g) Billiard chalks of Chapter 95; or
- (h) Writing or drawing chalks and tailors' chalks of Chapter 96.
- 2. Heading Nos. 25.01, 25.03 and 25.05 cover only products which, have been washed (even with chemical substances, eliminating the impurities without changing the structure of the product), crushed, ground, powdered, levigated, sifted, screened, or concentrated by flotation, magnetic separation or other mechanical or physical processes (except crystallisation), but not products that have been roasted, calcined or obtained by mixing.
- 3. In the heading No. 25.02, 'sagol' means cement obtained by heating limestone and burnt coal in a kiln and 'ashmoh' means cement obtained by fine grinding of paddy husk, ash and hydrated lime with an additive.

Heading Sub- No. heading No.		g Description of goods	Rate of duty

Ores, slag and ash

- 1. This Chapter does not cover:
- (a) Slag and similar industrial waste prepared as macadam (Chapter 25);
- (b) Natural magnesium carbonate (magnesite), whether or not calcined (Chapter 25);
 - (c) Basic slag of Chapter 31;
- (d) Slag wool, rockwool and similar mineral wools of Chapter 68;
- (e) Waste and scrap of precious metal or of metal clad with precious metal, of Chapter 71; or
- (f) Copper, nickel or cobalt matter produced by any process of smelting (Section XV).
- 2. Heading No. 26.01 applies to ores which have been subjected to processes preparatory to metallur gical operations.
- 3. In heading No. 26.02, the ash and residues (other than dross and ash of zinc containing metals or metallic compounds) applies only to ash and residue of a kind used in industry either for the extraction of metals or as a basis for the manufacture of chemical compounds of metals.

Headi No.	ng Sub- heading No.	Description of goods	Rate of duty

CHAPTER 27

Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes

Notes

- 1. This Chapter does not cover:
- (a) Separate chemically defined organic compounds, other than pure methane and propane which are to be classified in heading No. 27.11.
 - (b) Medicaments of Chapter 30.
- (c) Mixed unsaturated hydrocarbons of Chapter 33 or 38.
- 2. References in heading No. 27.10 to 'petroleum oils and oils obtained from bituminous minerals'

include not only petroleum oils and oils obtained from bituminous minerals but also similar oils, as well as those consisting mainly of mixed unsaturated hydrocarbons, obtained by any process, provided that the weight of the non-aromatic constituents exceeds that of the aromatic constituents.

- 3. For the purposes of sub-heading Nos. 2707.91, 2707.92, 2707.93, 2707.94 and 2707.95, 'benzole', 'to-hiole', 'xylole', 'naphthalene' and 'phenols' apply to products which contain more than 50% by weight of benzene, toluene, xylene, naphthalene or phenols, respectively.
- 4. 'Flash point' shall be determined in accordance with the tests prescribed in this behalf in the rules made under the Petroleum Act, 1934 (30 of 1934).
- 5. 'Smoke point' shall be determined in the apparatus known as the Smoke Point Lamp in the manner indicated in the Indian Standards Institution specification IS: 1448 (p. 31)—1967 as in force for the time being.
- 6. 'Final boiling point' shall be determined in the manner indicated in the Indian Standards Institution specification IS: 1448 (p. 18)—1967 as in force for the time being.
- 7. 'Carbon residue' shall be determined in the apparatus known as Ramsbottom Carbon Residue Apparatus in the manner indicated in the Indian Standards Institution specification IS:1448 (p. 8)—1967 as in force for the time being.
- 8. 'Colour comparison test' shall be done in the following manner, namely:—
 - (i) First prepare a five per cent. weight by volume solution of Potassium Iodine (analytical reagent quality) in distilled water.
 - (ii) 'To this, add Iodine (anylytical regent quality) in requisite amount to prepare an exactly 0.04 normal Iodine solution.
 - (iii) Thereafter, compare the colour of the mineral cil under test with the Iodine solution so prepared.

SECTION VI

Products of the chemical or allied industries

Note

Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this Section and are intended to be mixed together to obtain a product of Section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are:

- are put up, clearly identifiable as being intended to be used together without first being repacked;
- $\phi(b)$ presented together; and

(c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.

CHAPTER 28

Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radio-active elements or of isotopes

- 1. This Chapter does not cover:
- (a) Sodium chloride and magnesium oxide, whether or not pure, and other products of Section V:
- (b) Organo-inorganic compounds other than those mentioned in Note 3 below:
- (c) Inorganic products of a kind used as luminophores of Chapter 32;
- (d) Artificial graphite; products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades; ink removers, and cultured crystals other than optical elements of the halides of the alkali or alkaline-earth metals, of Chapter 33;
- (e) Precious or semi-precious stones (natural, synthetic or reconstructed) or dust or powder of such stones and precious metals and precious metal alloys of Chapter 71;
- (f) The metals, whether or not pure, and metals alloys of Section XV; or
- (g) Optical elements, for example, of the halides of the alkali or alkaline-earth metals of Chapter 90.
- 2. Except where the context otherwise requires, the headings of this Chapter apply only to:
 - (a) Separate chemical elements and separate chemically defined compounds, whether or not containing impurities;
 - (b) The products mentioned in (a) above dissolved in water;
 - (c) The products mentioned in (a) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;
 - (d) The products mentioned in (a), (b) or (c) above with an added stabiliser necessary for their preservation or transport;
 - (e) The products mentioned in (a), (b), (c) or (d) above with an added anti-dusting agent or a colouring substance added to facilitate their idenfication or for safety reasons, provided that the additions do not render the product particularly, suitable for specific use rather than for general use.
- 3. In addition to dithionites and sulphoxylates stabilised with organic substances, carbonates and peroxocarbonates of inorganic bases, cyanides, cyanides,

nide oxides and complex cyanides of inorganic bases, fulminates, cyanates and thiocyanates, of inorganic bases and carbides only the following compounds of carbon are to be classified in this Chapter:

- (a) Oxides of carbon, hydrogen cyanide and fulminic, isocyanic, thiocyanic and other simple or complex cyanogen acids;
 - (b) Halide oxides of carbon;
 - (c) Carbon disulphide;
- (d) Thiocarbonates, selenocarbonates, tellurocarbonates, selenocyanates, tellurocyanates, tetrathiocyanatodiamminochromates (reineckates) and other complex cyanates, of inorganic bases;
- (e) Hydrogen peroxide, solidified with urea Carbon oxysulphide, thiocarbonyl halides, cyanogen, cyanogen halides and cyanamide and its metallic derivatives, other than calcium cyanamide, whether or not pure (Chapter 31).
- 4. 'Normal pressure' in sub-heading Nos. 2801.32 and 2801.33 means the pressure equivalent to 760 millimetres of Mercury.
- 5. Chemically defined complex acids consisting of a non-metal acid of heading No. 28.02 and a metallic acid of heading No. 28.05 are to be classified in heading No. 28.02.
- 6. Heading No. 28.05 applies only to metallic or ammonium salts or peroxysalts.

Except where the context otherwise requires, double or complex salts are also to be classified in this heading.

- 7. Heading No. 2806 applies also to:
- (a) Technetium (atomic No. 43), promethium (atomic No. 61), polonium (atomic No. 84) and all elements with an atomic number greater than 84;
- (b) Natural or artificial radioactive isotopes including those of the precious metals or of the base metals of Sections XIV and XV), whether or not mixed together;
- (c) Compounds, inorganic or organic, of these elements or isotopes, whether or not chemically defined, whether or not mixed together;
- (d) Alloys, dispersions (including cermetes), ceramic products and mixtures containing these elements or isotopes or inorganic or organic compounds thereof and having a specific radioactivity exceeding 0.002 micro-curie per gram;
 - (e) Spent (irradiated) fuel elements (cartridges) of nuclear reactors;
- (f) Radioactive residues whether or not usable.
- 8. Chemical elements (for example, silicon and selenium) doped for use in electronics are to be classified in this Chapter, provided that they are in forms unworked as drawn, or in the form of cylin-

ders or rods, when cut in the form of discs, wafers or similar form, they fall in Chapter 38.

Organic chemicals

- 1. Except where the context otherwise requires, the headings of this Chapter apply only to:
 - (a) Separate chemically defined organic compounds, whether or not containing impurities;
 - (b) Mixtures of two or more isomers of the same organic compound (whether or not containing impurities), except mixtures of acyclic hydrocarbon isomers (other than stereoisomers), whether or not saturated (Chapter 27);
 - (c) The products mentioned in (a) or (b) above dissolved in water;
 - (d) The products mentioned in (a), (b) or (c) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;
 - (e) The products mentioned in (a), (b), (c), or (d) above with an added stabiliser necessary for their preservation or transport;
 - (f) The products mentioned in (a), (b), (c), (d) or (e) above with an added anti-dusting agent or a colouring or odoriferous substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for specific use rather than for general use;
 - (g) The following products, diluted to standard strengths, for the products of azo dyes diazonium salts; couplers used for these salts and diazotisable amines and their salts.
 - 2. This Chapter does not cover:
 - (a) Goods of heading No. 15.01 or glycerol (heading No. 15.06);
 - (b) Ethyl alcohol which is suitable for use otherwise than as fuel for spark-ignition engines;
 - (c) Methane, propane, ethylene, propylene, butylene or butadiene (Chapter 27);

- (d) The compounds of carbon mentioned in Note 3 to Chapter 28;
 - (e) Urea (Chapter 31);
- (f) Colouring matter of vegetable or animal origin (Chapter 31); synthetic organic colouring matter, synthetic organic products of a kind used as fluorescent brightening agents or as luminophores or dyes or other colouring matter put up in forms or packings for retail sale of Chapter 32;
 - (g) Enzymes (Chapter 35);
- (h) Metaldehyde, hexamethylenetetramine or similar substances, put up in forms (for example tablets, sticks or similar forms) for use as fuels or liquid or liquefied gas fuels in containers of a kind used for filling or refilling cigarette or similar lighters and of a capacity not exceeding 300 cm³ (Chapter 36);
- (i) Products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades and ink removers put up in packings for retail sale of Chapter 38; or
- (j) Optical elements, for example, of ethylenediamine tartrate (heading No. 90.01).
- 3 Goods which could be included in two or more of the headings of this Chapter are to be classified in that one of those headings which occurs last in numerical order.
- 4. (a) The esters of acid-function organic compounds of headings with organic compounds of these headings are to be classified with that compound which is classified in the heading placed last in numerical order in these headings.
- (b) Esters of ethyl alcohol or glycerol with acidfunction organic compounds of headings are to be classified in the same heading as the corresponding acid-function compounds.
 - (c) Subject to Note 3 to Chapter 28:
 - (1) Inorganic salts of organic compounds such as acid-phenolor enol-function compounds or organic bases, of various headings are to be classified in the heading appropriate to the organic compound; and
 - (2) Salts formed between organic compounds of various headings are to be classified in the heading appropriate to the base or to the acid (including phenol- or enol- function compounds) from which they are formed, whichever is placed last in numerical order in these headings.
- (d) Metal alcoholates are to be classified in the same heading as the corresponding alcohols except in the case of ethanol and glycerol.
- (e) Halides or carboxylic acids are to be classified in the same heading as the corresponding acids.
- 5. Within any one heading of this Chapter, derivatives of a chemical compound (or group of chemical compounds) are classified in the same sub-headings as that compound (or group of compounds), provided that they are not more specifically covered by any other sub-heading and that there is no residual sub-heading named 'other' in the series of sub-headings concerned.

- (g) Blood albumin not prepared for therapeutic or for prophylactic uses (Chapter 35).
- 2. For the purposes of heading No. 30.03.
- (i) 'medicaments' means goods (other than feods or beverages such as dietetic, diabetic or fortified foods, tonic beverages) not falling within heading No. 30.02 or 30.04 which are either:
  - (a) products comprising two or more constituents which have been mixed or compounded together for the therapeutic or prophylactic uses; or
    - (b) unmixed products suitable for such uses.
- (ii) 'Patent or proprietary medicaments' means any drug or medicinal preparation, in whatever form, for use in the internal or external treatment of, or for the prevention of ailments in human beings or animals, which bears either on itself or on its container or both, a name which is not specified in a monograph, in a Pharmacopoeia, Formulary or other publications, namely:—
  - (a) The Indian Pharmacopoeia;
  - (b) The International Pharmacopoeia;
  - (c) The National Formulary of India;
  - (d) The British Pharmacopoeia;
  - (e) The British Pharmaceutical Codex;
  - (f) The British Veterinary Codex;
  - (g) The United States Pharmacopoeia;
  - (h) The National Formulary of the U.S.A.;
  - (i) The Dental Formulary of the U.S.A.; and
  - (j) The State Pharmacopoeia of the U.SS.R.;

or which is a brand name, that is, a name or a registered trade mark under the Trade and Merchandise Marks Act, 1958 (43 of 1958), or any other mark such as a symbol, monogram, label, signature or invented words or any writing which is used in relation to that medicine for the purpose of indicating or so as to indicate a connection in the course of trade between the medicine and some person, having the right either as proprietor or otherwise to use the name or mark with or without any indication of the identity of that person.

- 3. Heading No. 30.05 applies only to the following, which are to be classified in that heading and in no other heading of this Schedule:—
  - (a) Sterile surgical catgut, similar sterile suture materials and sterile tissue adhesives for surgical wound closure;
  - (b) Sterile laminaria and sterile laminaria tents;
  - (c) Sterile absorbable surgical or dental haemostatics;
  - (d) Opacifying preparations for X-ray examinations and diagnostic reagents designed to be administered to the patient, being unmixed products put up in measured doses or products consisting of two or more ingredients which have been mixed together for such uses;
    - (e) Blood grouping reagents;

- (f) Dental cements and other dental fillings; bone reconstruction cements;
  - (g) First-aid boxes and kits; and
- (h) Chemical contraceptive preparations based on hormones or spermicides.
- 4. This Chapter does not cover Pharmaceutical products and medicaments containing alcohol, opium, Indian hemp or other narcotic drugs. For the purposes of this Note, 'Alcohol', 'Opium', 'Indian Hemp', 'Narcotic drugs' and 'Narcotics' have the meanings assigned to them in section 2 of the Medicinal and Toilet Preparations (Excise Duties) Act, 1955 (16 of 1955).
- 5. In relation to products of heading No. 30.03, conversion powder into tablets or capsules, labelling or relabelling of containers intended for consumers and repacking from bulk packs to retail packs or the adoption of any other treatment to render the product marketable to the consumer, shall amount to 'manufacture'.
- 6. Sub-heading No. 3003.11 shall apply to medicaments containing the ingredients mentioned therein with an added diluent, disintegrating agent, moistening agent hibricant, buffering agent, stabiliser or preservative, provided that such pharmaceutical necessities are therapeutically inert and do not interfere with the therapeutic or prophylactic activity of the ingredient or ingredients and in the case of 'para-amonio-salicylic Acid and its salts' shall exclude granules not conforming to the standards of the National Formulary of India, 1966.

# Essential oils and resinoids; perfumery, cosmetic or toilet preparations

### Notes

- 1. This Chapter does not cover:
  - (a) Soap or other products of heading No. 34.01;
  - (b) Gum, wood or sulphate turpentine or other products of Chapter 38; or
  - (c) Perfumery, cosmetics and toilet preparations containing alcohol or opium, Indian or other narcotics and for this purpose, these expressions have the meanings respectively assigned to them in section 2 of the Medicinal and Toilet Preparations (Excise Duties) Act, 1955 (16 of 1955).
- 2. Heading Nos. 33.03 to 33.08 apply, inter alia, to products, whether or not mixed (other than aqueous distillates and aqueous solutions of essential oils), suitable for use as goods of these headings and put up in packings with labels, literature or other indications that they are for use as cosmetics or toilet preparations or put up in a form clearly specialised

to such use and includes products whether or not they contain subsidiary pharmaceutical or antiseptic constituents, or are held out as having subsidiary, quartive or prophylactic value.

- 3. The 'perfumery, cosmetic or toilet preparations' in heading No. 33.07 applies, inter alia, to the following products: scented sachets; odoriferous preparations which operate by burning; perfumed papers and papers impregnated or coated with cosmetics; contact lens or artificial eye solutions; wadding, felt and nonwovens, impregnated, coated or covered with perfume or cosmetics; animal toilet preparations.
- 4. In relation to products of heading Nos. 33.03, 33.04 and 33.05, conversion of powder into tablets, labelling or relabelling of containers intended for consumers or repacking from bulk packs to retail packs or the adoption of any other treatment to render the products marketable to the consumer, shall be construed as 'manufacture'.

Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing or scouring preparations, candles and similar articles, modelling pastes, dental waxes and dental preparations with a basis of plaster

#### Notes

- 1. This Chapter does not cover:
- (a) Edible mixtures or preparations of animal or vegetable fats or oils of a kind used as mould release preparations (Chapter 15);

- (b) Separate chemically defined compounds; or
- (c) Shampeos, dentifrices, shaving creams and foams, or bath preparations, containing soap or other organic surface-active agents (Chapter 33).
- 2. For the purposes of heading No. 34.01, 'soap' applies only to soap soluble in water. Soap and the other products of heading No. 34.01 may contain added substances for example, disinfectants, abrasive powders, fillers or medicaments). Products containing abrasive powders remain classified in heading No. 34.01 only if in the form of bars, cakes or meulded pieces or shapes. In other forms, they are to be classified in heading No. 34.05 as "scouring powders and similar preparations".
- 3. For the purposes of heading No. 34.02, 'organic surface-active agents' are products which when mixed with water at a concentration of 0.5 per cent at 20° C and left to stand for one hour at the same temperature:
  - (a) give a transparent or translucent liquid or stable emulsion without separation of insoluble matter; and
  - (b) reduce the surface tension of water to  $4.5 \times 10 = \text{N/m}$  (45 dyne/cm) or less.
- 4. In heading No. 34.03, 'petroleum oils and oils obtained from bituminous minerals applies to the products defined in Note 2 to Chapter 27.
- 5. In heading No. 34.04, subject to the exclusions provided below, 'artificial waxes and prepared waxes' apply only to:
  - (a) Chemically produced organic products of a waxy character whether or not water-soluble;
  - (b) Products obtained by mixing different waxes:
  - (c) Products of a waxy character with a basis of one or more waxes and containing fats, resins, mineral substances or other materials.

This heading does not apply to:

- (i) Products of Chapters 15 and 34 even if having a waxy character;
- (ii) Unmixed animal waxes and unmixed vegetable waxes, whether or not coloured, of Chapter 15;
- (iii) Mineral waxes and similar products of Chapter 27, whether or not intermixed or merely coloured; or
- (iv) Waxes mixed with, dispersed or dissolved in a liquid medium.

# Photographic or cinematographic goods

- 1. This Chapter does not cover waste or scrap materials.
- 2. In this Chapter, 'photographic' relates to a process which permits the formation of visible images directly or indirectly by the action of light or other forms of radiation on sensitive surfaces.

#### Miscellaneous chemical products

#### Note

This Chapter includes, inter alia, the following goods:

- (a) Artificial graphite, colloidal or semi-colloidal graphite; preparations based on graphite or other carbon in the form of pastes, blocks, plates or other semi-manufactures:
- (b) Activated carbon; activated natural mineral products; animal black, including spent animal black;
  - (c) Tall oil, whether or not refined;
- (d) Residual lyes from the manufacture of wood pulp whether or not concentrated, desugared

- or chemically treated, including lignin sulphonates:
- (e) Gum, wood or sulphate turpentine and other turpentine oils produced by the distillation or other treatment of coniferous woods; crude dispentene; sulphite turpentine and other crude para-cymene; pine oil containing alphaterpineol as the main constitution:
- (f) Rosin and resin acids, and derivatives thereof; rosin spirit and rosin oils; run gums;
- (g) Wood tar; wood tar oils; wood creoscte; wood naphtha; vegetable pitch; brewers pitch and similar preparations based on rosin, resin acids or on vegetable pitch;
- (h) Insecticides, rodenticides, fungicides, herbicides, anti-sprouting products and plant-growth regulators, disinfectants and similar products;
- (i) Finishing agents, dye carriers to accelerate the dyeing or fixing of dye-stuffs and other products and preparations (for example, dressings and mordants), of a kind used in the textile, paper, leather or like industries, not elsewhere specified or included;
- (j) Pickling preparations for metal surfaces; fluxes and other auxiliary preparations for soldering, brazing or welding; soldering, brazing or welding powders and pastes consisting of metal and other materials; preparations of a kind used as cores or coatings for welding electrodes or rods;
- (k) Anti-knock preparations, Oxidation inhibitors, gum inhibitors, viscosity improvers, anti-corrosive preparations and other prepared additives, for mineral oils (including gasoline) or other liquids used for the same purposes as mineral oils;
- (1) Prepared rubber accelerators; compound plasticisers for rubber or plastics, not elsewhere specified or included; anti-oxidising preparations and other compound stabilisers for rubber or plastics;
- (m) Preparations and charges for fire-extinguishers; charged fire extinguishing grenades;
- (n) Organic composite solvents and thinners, not elsewhere specified or included; prepared paint or varnish removers;
- (o) Reaction initiators reaction accelerators and catalytic preparations, not elsewhere specified or included:
- (p) Refractory cements, mortars, concretes and similar compositions;
- (q) Mixed alkylbenzenes and mixed alkylna-phthalenes, other than those of Chapter 27 or Chapter 29;
- (r) Chemical elements doped for use in electronics, in the form of discs, wafers or similar forms: chemical compounds doped for use in electronics;
- (s) Hydraulic brake fluids and other prepared liquids for hydraulic transmission, not containing or containing less than 70 per cent. by weight of petroleum oils or oils obtained from bituminous minerals:

- (t) Anti-freezing preparations and prepared deicing fluids;
- (u) Prepared culture media for development of micro-organisms;
- (v) Composite diagnostic or laboratory reagents, other than those of Chapter 30;
- (w) Prepared binders for foundry moulds or cores; or
- (x) Fusel oil; Dippels oil; ink-removers; stencil correctors;

(1) (2) (3) (4)  38.01 MISCELLANEOUS PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES (INCLUDING THOSE CONSISTING OF MIXTURES OF NATURAL PRODUCTS), NOT ELSEWHERE SPECIFIED OR INCLUDED  —Rosin and resin acids, and derivatives thereof; rosin spirit and rosin oils; run gums:  3801.11Ester gums 10% 3801.12Run gums 40% 3801.19Other 12% 3801.20 —Insecticides, fungicides, herbicides, weedicides and pesticides  3801.30 —Prepared rubber accelerators; compound plasticisers for rubber or plastics, not elsewhere specified or included; anti-oxidising preparations and other compound stabilisers for rubber or plastics  3801.40 —Chemical elements doped for use in electronics, in the form of discs, wafers or similar forms; chemical compounds doped for use in electronics  3801.90 —Other 12%	Heading No.	Sub- heading Description of goods No.			Rate of duty

#### SECTION VII

# Plastics and articles thereof; rubber and articles thereof

#### Notes

- 1. Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this Section and are intended to be mixed together to obtain a product of Section VI or Section VII, are to be classified in the heading appropriate to that product, provided that the constituents are,—
  - (a) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;
    - (b) presented together; and
  - (c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.
- 2. Except for the goods of heading No. 39.18 or 39.19, plastics, rubber, and articles thereof, printed with motifs, characters of pictorial representations,

which are not merely incidental to the primary use of the goods, fall in Chapter 49.

#### CHAPTER 39

#### Plastics and articles thereof

#### Notes

1. Throughout this Schedule, the expression plastics means those materials of heading Nos. 39.01 to 39.14 which are or have been capable, either at the moment of polymerisation or at some subsequent stage, of being formed under external influence (usually heat and pressure, if necessary with a solvent or plasticiser) by moulding, casting, extruding, rolling or other process into shapes which are retained on the removal of the external influence.

Throughout this Schedule, any reference to 'plastics' also includes vulcanised fibre. The expression, however, does not apply to materials regarded as textile materials of Section XI.

- 2. This Chapter does not cover:-
- (a) Linoxyn (heading No. 15.08); Waxes (Chapter 2" or Chapter 34);
- (b) Separate chemically defined organic compounds (Chapter 29);
  - (c) Heparin or its salts (Chapter 30);
  - (d) Stamping foils (Chapter 32);
- (e) Organic surface active agents or preparations (Chapter 34);
  - (f) Run gums or ester gums (Chapter 38);
- (g) Synthetic rubber, as defined for the purposes of Chapter 40, or articles thereof;
- (h) Saddlery or harness or trunks, suitcases, handbags, or other containers (Chapter 42);
- (i) Plaits, wickerwork or other articles of Chapter 46;
  - (j) Wall coverings of Chapter 48;
- (k) Articles of Section XI (textiles and textile articles);
- (1) Articles of Section XII (for example, footwear, headgear, umbrellas, sun umbrellas, walkingsticks and parts thereof);
  - (m) Imitation jewellery (Chapter 71);
- (n) Articles of Section XVI (machines and mechanical or electrical appliances);
  - (o) Parts of aircraft or vehicles (Section XVII);
- (p) Articles of Chapter 90 (for example, optical elements, spectacle frames, drawing instruments);
- (q) Articles of Chapter 91 (for example, clock or watch cases);
- (r) Articles of Chapter 92 (for example, musical instruments or parts thereof);
- (s) Articles of Chapter 94 (for example, furniture, lamps and lighting fittings, illuminated signs);
- (t) Articles of Chapter 95 (for example, toys, games, sports requisites); or

- (u) Articles of Chapter 96 (for example, brushes, buttons, slide fasteners, combs mouthpieces or stems for smoking pipes, cigarette holders or the like, parts of vacuum flasks or the like, pens, propelling pencils).
- 3. Heading Nos. 39.01 to 39.11 apply only to goods of a kind produced by chemical synthesis, falling in the following categories:—
  - (a) Liquid synthetic polyolefins of which less than 60 per cent. by volume distils at 300°C, after conversion to 1,013 milibars when a reduced—pressure distillation method is used (heading Nos. 39.01 and 39.02);
  - (b) Resins, not highly polymerised, of the coumarone-indene type (heading No. 39.11);
  - (c) Other synthetic polymers with an average of at least 5 monomer units;
    - (d) Silicones (heading No. 39.10);
  - (e) Resols (heading No. 39.09) and other prepolymers.
- 4. For the purposes of this Chapter, except where the context otherwise requires, copolymers (including co-polycondensates, co-polyaddition products, block copolymers and graft copolymers) and polymer blends are to be classified in the heading covering polymers of that comonomer which predominates by weight over every other single comonomer, comonomers whose polymers fall in the same heading being regarded as constituting a single comonomer.

If no single comonomer predominates, copolymers or polymer blends, as the case may be, are to be classified in the heading which occurs last in the numerical order among those which equally merit consideration.

The expression "copolymers" covers all polymers in which no single monomer contributes 95 per cent. or more by weight to the total polymer content.

- 5. Chemically modified polymers, that is those in which only appendages to the main polymer chain have been changed by chemical reaction, are to be classified in the heading appropriate to the unmodified polymer. This provision does not apply to graft copolymers.
- 6. In heading Nos. 39.01 to 39.14, the expression 'primary forms' applies only to the following forms:—
  - (a) Liquids and pastes, including dispersions (emulsions and suspensions) and solutions;
  - (b) Blocks of irregular shape, lumps, powders (including moulding powders), granules, flakes and similar bulk forms,

and the conversion of any one primary form into another shall amount to 'manufacture'.

- 7. Heading No. 39.15 does not apply to waste, parings and scrap of a single thermoplastic material, transformed into primary forms (heading Nos. 39.01 to 39.14).
- 8. For the purposes of heading No. 39.17, the expression 'tubes, pipes and hoses' means hollow products, whether semi-manufactures or finished

products, of a kind generally used for conveying, conducting or distributing gases or liquids (for example, ribbed garden hose, perforated tubes). This expression also includes sausage casings and other lay-flat tubing. However, except for the last-mentioned, those having an internal cross-section, other than round, oval, rectangular (in which the length does not exceed 1.5 times the width) or in the shape of a regular polygon are not to be regarded as tubes, pipes and hoses but as profile shapes.

- 9. For the purposes of heading No. 39.18, the expression 'wall or ceiling coverings of plastics' applies to products in rolls, of a width not less than 45 Cms suitable for wall or ceiling decoration, consisting of plastics fixed permanently on a backing of any material other than paper, the plastic layer (on the face side) being grained, embossed, coloured, design-printed or otherwise decorated.
- 10. In heading Nos. 39.20 and 39.21, the expression "plates, sheets, film, foil and strip" applies only to plates, sheets, film, foil and strip (other than those of Chapter 54) and to blocks of regular geometric shape, whether or not printed or otherwise surface-worked, uncut or cut into rectangles (including squares) but not further worked (even if when so cut, they become articles ready for use).
- 11. Heading No. 39.23 applies only to the following articles, namely:—
  - (a) Reservoirs, tanks (including septic tank), vats and similar containers, of a capacity exceeding 300 litres;
  - (b) Scructural elements used, for example, in floors, walls or partitions, ceilings or roofs:
    - · (c) Gutters and fittings therefor;
  - (d) Doors, windows and their frames and thresholds for doors;
  - (e) Balconies, balustrades, fencing, gates and similar barriers;
  - (f) Shutters, blinds (including venetian blinds) and similar articles and parts and fittings thereof;
  - (g) Large-scale shelving for assembly and permanent installation, for example, in shops, workshops, warehouses;
  - (h) Baths, washbasins and similar sanitaryware; articles for the conveyance and packing of goods; tableware and kitchenware;
  - (i) Ornamental architectural features, for example, flutings, cupolas dovecotes; and
  - (j) Fittings and mountings intended for permanent installation in or on doors, windows, staircases, walls or other parts of buildings, for example, knobs, handles, hooks, brackets, towel rails, switch-plates and other protective plates.
- 12. In heading Nos. 39.20 and 39.21, the expression flexible' means an article which has a modulus of elasticity either in flexture or in tension of not over 700 kilograms per square centimetre at 23°C and 50 per cent. relative humidity when tested in accordance with the method of test for stiffness of plastics (ASTM Designation D 747-63), for flexural properties of plastics (ASTM Designation D 790-63), for tensile properties of plastics (ASTM

Designation D — 638-64T), or for tensile properties of thin plastic sheeting (ASTM Designation D — 882-64T) and 'rigid' means all articles other than 'flexible' as defined above.

13. In heading No. 39.21 'rigid polyurethane foam' means cellular polyurethane with compressive strength of 0.418 to 28.14 Kg./Cm² and flexural strength of 1.05 to 28.14 Kg./Cm² when tested in accordance with American Standard (Designation ASTM-D-2341).

14. Within any one heading of this Chapter, copolymers (including co-polycondensates, co-polyaddition products, block copolymers and graft copolymers) are to be classified in the same sub-heading as homopolymers of the predominant comonomer, and chemically modified polymers of the kind specified in Note 5 above are to be classified in the same sub-heading as the unmodified polymer, provided that such copolymers or chemically modified polymers are not more specifically covered by any other sub-heading and that there is no residual sub-heading named "Other" in the series of sub-headings concerned. Polymer blends are to be classified in the same sub-heading as copolymers (or homopolymers, as the case may be) of the same monomers in the same proportions.

		DIMENSION EXCEEDS 1 MM, RODS, STICKS AND PROFILE SHAPES, WHE-		Notes
÷		THER OR NOT SURFACE- WORKED BUT NOT OTHER-	•	1. Except where the context otherwise requires,
-		WISE WORKED, OF PLASTICS.		throughout this Schedule, the expression 'rubber' means the following products whether or not
39.17	3917.00	TUBES, PIPES AND HOSES,	Nil	vulcanised or hardened: natural rubber, balata, guttapercha, guayule, chicle and similar natural
		AND FITTINGS THERE- FOR (FOR EXAMPLE, JOINTS, ELBOWS, FLAN- GES), OF PLASTICS.		gums, synthetic rubber, factice derived from oils, and such substances reclaimed.
39.18	3918.00	FLOOR COVERINGS OF	30%	2. This Chapter does not cover: —
30123	44-41 <b>4</b>	PLASTICS, WHETHER OR NOT SELF-ADHESIVE, IN ROLLS OR IN THE		(a) Goods of Section XI (textiles and textile articles);
		FORM OF TILES; WALL OR CEILING COVERINGS		(b) Footwear or parts thereof of Chapter 64;
	,	OF PLASTICS, AS DEFI- NED IN NOTE 9 TO THIS CHAPTER.		(c) Headgear or parts thereof Chapter 65;
39.19	3919.00	SELF-ADHESIVE PLATES, SHEETS, FILM, FOIL,	30%	(d) Mechanical or electrical appliances or parts thereof of Section XVI (including electrical goods
		TAPE, STRIP AND OTHER FLAT SHAPES, OF PLAS- TICS, WHETHER OR NOT		of all kinds), of hardened rubber; (e) Articles of Chapter 90, 92, 94 or 96; or
		IN ROLLS.	-	
39.20	-	OTHER PLATES, SHEETS, FILM, FOIL AND STRIP, OF PLASTICS, NON-CEL-		(f) Articles of Chapter 95 (other than sports gloves).
		LULAR, WHETHER LAC-		3. In heading Nos. 40.02, 40.03 and 40.05, the
		QUERED OR METALLI- SED OR LAMINATED,		expression 'primary forms' applies only to liquids
	-	SUPPORTED OR SIMI-		and pastes (excluding latex, whether or not prevul- canised, and other dispersions and solutions), and
		LARLY COMBINED WITH OTHER MATERIALS OR NOT.		blocks of irregular shape, lumps, bales, powders, granules, crumbs and similar bulk forms.
		-Of polymers of vinyl chloride:		O- WILLIAM OUR SHILLIAM DUIN TOTHIS.
		Rigid plates, sheets, film, foil and strip	30%	4. In Note 1 above and in heading No. 40.02, the expression 'synthetic rubber' applies to:—
	3920.12	Flexible plates, sheets, film, foil and strip	30%	
		Of regenerated Cellulose:		(a) Unsaturated synthetic substances which can be irreversibly transformed by vulcanisation with
	3920.21	Film, of thickness not exceed-	10%	sulphur into non-thermoplastic substances which,
•	3920.22	ing 0.25 millimetres	20%	at a temperature between 18°C and 29°C, will not
		Other	30%	break on being extended to three times their
		—Of other plastics:	. ,0	original length and will return, after being extended to twice their original length, within a
	3920.31	Rigid plates, sheets, film, foil	30%	period of five minutes, to a length not greater than
+	3920.32	and strip Flexible plates, sheets, film,	Nil	one and a half times their original length. For the
		foil and strip		purposes of this test, substances necessary for the
39.21		OTHER PLATES, BLOCKS		cross-linking, such as vulcanising activators or accelerators, may be added; the presence of subs-
		SHEETS, FILM, FOIL AND		tances as provided for by Note 5(b) (ii) and (iii)

is also permitted. However, the presence of any substances not necessary for the cross-linking, such as extenders, plasticisers and fillers, is not permitted:

- (b) Thioplasts (TM); and
- (c) Natural rubber modified by grafting or mixing with plastics, depolymerised natural rubber, mixture of unsaturated synthetic substances with saturated synthetic high polymers provided that all the above-mentioned products comply with the requirements concerning vulcanisation, elongation and recovery in (a) above.
- 5. (a) Heading Nos. 40.01 and 40.02 do not apply to any rubber or mixture of rubbers which has been compounded, before or after coagulation with:—
  - (i) vulcanising agents, accelerators, retarders or activators (other than those added for the preparation of prevulcanised rubber latex);
  - (ii) pigments or other colouring matter, other than those added solely for the purpose of identification;
  - (iii) plasticisers or extenders (except mineral oil in the case of oil-extended rubber), fillers, reinforcing agents, organic solvents or any other substances, except those permitted under (b);
- (b) The presence of the following substances in rubber or mixture of rubbers shall not affect its classification in heading No. 40.01 or 40.02, as the case may be, provided that such rubber or mixture of rubbers retains its essential character as a raw material:—
  - (i) emulsifiers or anti-tack agents;
  - (ii) small amounts of breakdown products of emulsifiers;
  - (iii) very small amounts of the following: heatsensitive agents (generally for obtaining thermosensitive rubber latexes), cationic surface-active agents (generally for obtaining electro-positive rubber latexes), antioxidants, coagulants, crumbling agents, freeze-resisting agents, peptisers, preservatives, stabilisers, viscosity-control agents or similar special purpose additives.
- 6. For the purposes of heading No. 40.04, the expression 'waste, parings and scrap' means rubber waste, parings and scrap from the manufacture of working of rubber and rubber goods definitely not usable as such because of cutting-up, wear or other reasons.
- 7. Thread wholly vulcanised rubber, of which any cross-sectional dimension exceeds 5mm., is to be classified as strip, rods or profile shapes, of heading No. 40.08.
- 8. Heading No. 40.10 includes conveyor or transmission belts or belting of textile fabric impregnated, coated, covered or laminated with rubber or made from textile yarn or cord impregnated, coated, covered or sheathed with rubber.
- 9. In heading Nos. 40.01, 40.02, 40.03, 40.05 and 40.08, the expressions 'plates', 'sheets' and 'strips' apply only to plates, sheets and strip and to blocks of regular geometric shape, uncut or simply cut to

rectangular (including square) shape, whether or not having the character of articles and whether or not printed or otherwise surface-worked, but not otherwise cut to shape or further worked.

In heading No. 40.08, the expressions 'rods' and 'profile shapes' apply only to such products, whether or not cut to length or surface-worked but not otherwise worked.

10. For the purposes of heading Nos. 40.09 and 40.10, while calculating the percentage of rubber compound contents, the weight of canvas, yarn, metallic wires, washers, rivets and the like, which products, shall form integral part or ingredient of such rubber products, shall be taken into an account, but the weight of metallic fitments and surface finishing necessary to make the belting and tubing suitable for particular end uses, shall be ignored.

# CHAPTER 44 Wood and articles of wood

- 1. This Chapter does not cover:
- (a) Wood, in chips, in shavings, crushed, ground or powdered, of a kind used primarily in perfumery, in pharmacy, or for insecticidal, fungicidal or similar purposes;
- (b) Bamboos or other plaiting materials of Chapter 14;
- (c) Wood, in chips, in shavings, ground or powdered, of a kind used primarily in dyeing or in tanning (Chapter 14):
  - (d) Activated charcoal (Chapter 38);
  - (e) Articles of Chapter 42:
  - (f) Articles of Chapter 46;
  - (g) Footwear or parts thereof of Chapter 64;
- (h) Articles of Chapter 66 (for example, umbrellas and walkingsticks and parts thereof);
  - (i) Articles of Chapter 68;
  - (j) Imitation jewellery of Chapter 71;
- (k) Articles of Section XVI or Section XVII (for example, machine parts, cases, covers, cabinets for machines and apparatus and wheel--wrights' wares):
- (1) Articles of Section XVIII (for example, clock cases and musical instruments and parts
  - (m) Parts of firearms (Chapter 93);

- (n) Articles of Chapter 94 (for example, furniture, lamps and lighting fittings, prefabricated buildings);
- (o) Articles of Chapter 95 (for example, toys, games, sports requisites);
- (p) Articles of Chapter 96 (for example, smoking pipes and parts thereof, buttons, pencils) excluding bodies and handles of wood.
- 2. In this Chapter, the expression 'densified wood' means wood which has been subjected to chemical or physical treatment (being, in the case of layers bonded together, treatment in excess of that needed to ensure a good bond), and which has thereby acquired increased density or hardness together with improved mechanical strength or resistance to chemical or electrical agencies.
- 3. 'Marine plywood' means plywood conforming to Indian Standard specification No. IS: 710-1976.
- 4. 'Aircraft plywood' means plywood conforming to Indian Standard specifications. Nos. IS: 709-1974 and IS: 4859-1968.
- 5. Heading No. 44.10 applies also to articles of particle board or similar board, fireboard, laminated wood or densified wood. This heading, however, does not apply to tools in which the blade, working edge, working surface or other working part is formed by any of the materials specified in Note 1 to Chapter 82.
- 6. For the purposes of this Chapter and subject to Note 1 (f) above, any reference to 'wood' applies also to bamboo and other materials of a woody

#### Notes

1. In this Chapter, 'plaiting materials' means materials in a state or form suitable for plaiting interlacing or similar processes; it includes straw, osier or willow, bamboos, rushes, reeds, strips of wood, strips of other vegetable material (for example, raffia, narrow leaves or strips cut from broad leaves) or bark, unspun natural textile fibres, monofilament and strip and the like of plastics and strips of paper, but not strips of leather or composition leather or of felt or nonwovens, human hair, horse-hair textile rovings of yarns, or monofilment and strip and the like of Chapter 54.

### 2. This Chapter does not cover:

- (a) Wall covering (Chapter 48);
- (b) Twine, cordage, ropes or cables, plaited or not (Chapter 56);
- (c) Footwear or headgear or parts thereof of Chapter 64 or 65;
- (d) Vehicles or bodies for vehicles, of basketware (Chapter 87); or
- (e) Articles of Chapter 94 (for example, furniture, lamps and lighting fittings).

#### CHAPTER 48

Paper and paperboard; articles of paper pulp, of paper or of paperboard

- 1. This Chapter does not cover:
  - (a) Pharmaceutical products (Chapter 30);
  - (b) Stamping foils (Chapter 32);
- (c) Perfumed papers or papers impregnated or coated with cosmetics (Chapter 33);
- (d) Paper or cellulose wadding impregnated, coated or covered with soap or detergent, or with polishes, creams or similar preparations of Chapter 34:
- (e) Sensitised paper or paperboard of Chapter 37:
- (f) Paper-reinforced stratified plastic sheeting, or one layer of paper or paperboard coated or covered with a layer of plastics, the latter constituting more than half the total thickness, or articles of such materials, other than wall coverings of heading No. 48.14 (Chapter 39);
- (g) Articles of Chapter 42 (for example, travel goods);
- (h) Articles of Chapter 46 (manufactures of plaiting material);
- (i) Paper yarn or textile articles of paper yarn (Section XI);
  - (j) Articles of Chapter 64 or Chapter 65;
- (k) Abrasive paper or paperboard or paper or paperboardbacked mica (paper and paperboard coated with mica powder are however, to be classified in this Chapter);
- (l) Metal foil backed with paper or paperboard (Section XV);
- (m) Parts and accessories of musical instruments (for example, cards) of Chapter 92;
- (n) Articles of Chapter 95 for example, toys, games, sports requisites) or Chapter 96 (for example, buttons).
- 2. Heading Nos. 48.01 to 48.05 include paper and paperboard which have been subjected to calendering, super-calendering, glazing or similar finishing, false water-marking or surface sizing, and also paper, paperboard, cellulose wadding and webs of cellulose fibres, coloured or marbled throughout the mass by any method. Except where heading No. 48.03 otherwise requires, these headings do not apply to paper, paperboard, cellulose wadding or webs of cellulose fibres which have been otherwise processed, for example, by coating or impregnation.
- 3. In this Chapter "newsprint" means uncoated paper of a kind used for the printing of newspapers, of which not less than 50 per cent. by weight of the total fibre content consists of wood fibres obtained by a mechanical process, unsized or very lightly sized, having a smoothness or each side not exceeding 200 seconds Bekk, weighing not less than 40 grammes per square metre and not more than 65 grammes per square metre and having an ash

content by weight not exceeding 8 per cent. 'Odd size newsprint' means newsprint which cannot be used on a rotary printing press on account of its being non-standard in size and 'reject newsprint' means newsprint which cannot be used on a rotary printing press on account of numerous joints or crushed central core in it or is otherwise defective.

- 4. In this Chapter, 'strawboard' means a board made wholly or predominantly from partially cooked unbleached straw or bagasse or grasses or other agricultural residues or a mixture of these.
- 5. In addition to hand-made paper and paperboard, heading No. 48.02 covers only paper and paperboard made mainly from bleached pulp or from pulp obtained by a mechanical process.
- 6. In this Chapter, 'kraft paper and paperboard' means paper and paperboard of which not less than 80 per cent. by weight of the total fibre content consists of fibres obtained by the chemical sulphate or soda processes.
- 7. Paper, paperboard, cellulose wadding and weds of cellulose fibres answering to a description in two or more of the heading Nos. 48.01 to 48.11 are to be classified under that one of such headings which occurs last in the numerical order in the Schedule.
- 8. Except for the articles of heading No. 48.14 or paper lables of heading No. 48.18, paper, paperboard, cellulose wadding and articles thereof printed with motifs, characters or pictorial representations,

which	are not	characters or pictorial repre- merely incidental to the pro- fall in Chapter 49.			4004 D4	-Other kraft paper:	Rs. 1585 per tonne

### Notes

- 1. This Chapter does not cover:
- (a) Photographic negatives or positives on transparent bases (Chapter 37);
- (b) Maps, plans or globes, in relief, whether or not printed (Chapter 90);
- (c) Original engravings, prints or lithographs, postage or revenue stamps, stamp postmarks, first-day covers, postal stationery or the like, antiques of an age exceeding one hundred years or other articles (all of Chapter 97).
- 2. For the purposes of Chapter 49, 'printed' also means reproduced by means of a duplicating machine, produced under the control of a computer, embossed, photographed, photo-copied, thermocopied or type-written.

## SECTION XI

## Textiles and textile articles

- 1. This Section does not cover:
- (a) Articles of Chapter 30 (for example, wadding, gauze, bandages and similar articles for medical, surgical, dental or veterinary purposes, sterile surgical suture materials);
  - (b) Sensitised textiles of Chapter 37;
- (c) Monofilament of which any cross-sectional dimension exceeds 1 mm and strip and the like (for example, artificial straw) of an apparent width exceeding 5 mm, of plastics (Chapter 39), or plaits or fabrics and other basketware and wickerwork of such monofilament or strip (Chapter 46);
- (d) Woven, knitted or crocheted fabrics, felt or nonwovens, impregnated, coated, covered or laminated with plastics, and articles thereof, of Chapter 39;
- (e) Woven, knitted or crocheted fabrics, felt or nonwovens, impregnated, coated, covered or laminated with rubber, and articles thereof, of Chapter 40;
  - (f) Articles of textile materials (Chapter 42);
- (g) Products and articles of Chapter 48 (for example, cellulose wadding);
- (h) Footwear or parts of footwear, gaiters or leggings or similar articles of Chapter 64:
- (i) Hair nets and other headgear or parts thereof of Chapter 65;
- (j) Abrasive coated textile material and also carbon fibres and articles of carbon fibres (Chapter 68);
- (k) Glass fibres or articles of glass fibres, other than embroidery with glass thread on a visible ground of fabric (Chapter 70);
- (1) Articles of Chapter 94 (for example, furniture, bedding, lamps and lighting fittings); or
- (m) Articles of Chapter 95 (for example, toys, games, sports requisites and nets).
- 2. (A) Articles classifiable in Chapters 50 to 55 or in heading No. 58.06 or 59.02 and of a mixture of two or more textile materials are to be classified as if consisting wholly of that one textile material which predominates by weight over any other single textile material.

- (B) For the purposes of the above rule: -
- (i) Gimped horsehair yarn (Chapter 51) and metallised yarn (Chapter 56) are to be treated as a single textile material the weight of which is to be taken as the aggregate of the weights of its components; for the classification of woven fabrics, metal thread is to be regarded as a textile material;
- (ii) The choice of appropriate heading shall be effected by determining first the Chapter and then the applicable heading within that Chapter, disregarding any material not classified in that Chapter;
- (iii) When both Chapters 54 and 55 are involved with any other Chapter, Chapters 54 and 55 are to be treated as a single Chapter;
- (C) If the classification of a yarn or fabric cannot be determined under the foregoing clauses for the reason that two or more of the following fibres or yarns that is to say,—
  - (a) Silk (including silk noil);
  - (b) Wool;
  - (c) Cotton;
  - (d) Flax, jute and ramie;
  - (e) Synthetic staple fibre or yarn thereof; and
  - (f) Artificial staple fibre or yarn thereof,

are equal in weight, in any yarn or fabric, as the case may be, then such one of those fibres for yarns, as the case may be, the predominance of which would render such yarn or fabric fall under that Chapter or heading of this Schedule which read with the relevant notification, if any, for the time being in force issued under the Central Excise Rules, 1944, attracts the highest amount of duty payable, shall be deemed to be predominant in such yarn or fabric and accordingly, such yarn or fabric shall be deemed to fall under the applicable Chapter or heading, as the case may be.

- (D) Throughout this Schedule, 'man-made fibres means staple fibres and filaments of organic polymers produced by manufacturing process, either:—
  - (i) By polymerisation of organic monomers, such as polyamides, polyesters, polyurethanes or polyvinyl derivatives: or
  - (ii) By chemical transformation of natural organic polymers (for example, cellulose, casein, proteins or algae), such as viscose rayon, cellulose acetate, cupro or alginates.

The terms 'synthetic' and 'artificial' used in relation to fibres mean: synthetic: fibres as defined at (i); artificial: fibres as defined at (ii).

The terms 'man made' 'synthetic' and 'artificial' shall have the same meanings when used in relation to 'textile materials'.

- 3. For the purposes of heading Nos. 52.03, 52.04, 54.02, 54.04 and 55.05 and 55.06 'sewing thread' means multiple (folded) or cabled yarn:
  - (a) Put up on supports (for example, reels, tubes) of a weight including support not exceeding 1,000 grams;

- (b) Dressed; and
- (c) With a final "Z" or "S" twist.
- 4. For the purposes of this Section, 'high tenacity yarn' means yarn having a tenacity, expressed in cN/tex (centinewtons per tex), greater than the following:

Single yarn of nylon or other polyamides, or of polyesters

60cN/tex

Multiple (folded) or cabled yarn of nylon or other polyamides, or of polyesters

55cN/tex

Single, multiple (folded) or cabled yarn of viscose rayon .

27cN/tex

- 5. For the purposes of this Section, 'made up'
  - (a) Cut otherwise than into squares or rectangles;
  - (b) Produced in the finished state, ready for use (or merely needing separation by cutting dividing threads) without sewing or other working (for example, certain dusters, towels, table cloths, scarf squares, blankets);
  - (c) Hemmed or with rolled edges, or with a knotted fringe at any of the edges, but excluding fabrics, the cut edges of which have been prevented from unravelling by whipping or by other simple means;
  - (d) Cut to size and having undergone a process of drawn thread work;
  - (e) Assembled by sewing, gumming or otherwise (other than piece goods consisting of two or more lengths of identical material joined end to end and piece goods composed of two or more textiles assembled in layers, whether or not padded);
  - (f) Knitted or crocheted to shape, presented in the form of a number of items in the length.
- 6. Chapters 50 to 55 and, except where the context otherwise requires, Chapters 56 to 60 do not apply to goods made up within the meaning of Note 5 above, Chapters 50 to 55 do not apply goods of Chapters 56 to 59.
- 7. The woven fabrics of Chapters 50 to 55 include fabrics consisting of layers of parallel textile yarns super-imposed on each other at acute or right angles. These layers are bonded at the intersections of the yarns by an adhesive or by thermal bonding.
- 8. Elastic products consisting of textile materials combined with rubber threads are classified in this Section.
- 9. For the purposes of this Section, the expression 'impregnated' includes 'dipped'.
- 10. For the purposes of this Section, the expression 'polyamides' includes "aramids";
- 11. In this Section, the expression 'count' wherever it appears, means the size of grey yarn (excluding any sizing material) expressed in English count. For multiple fold, 'count' means the count of the basic

single yarn. Where the count is in fraction, then, if the fraction is one-half or more it shall be treated as one, and if such fraction is less than one-half, it shall be ignored.

- 12. For the purpose of determining the average count of yarn in cotton fabrics, the following rules shall apply, namely:—
  - (a) Yarn used in the borders or selvedges shall be ignored;
  - (b) For multiple-fold yarn, the count of the basic single yarn shall be taken and the number of ends per 25.4 mm. in the reed or the number of picks per 25.4 mm., as the case may be, shall be multiplied by the number of plies in the yarn; where there are basic single yarns of different counts, the count of the basic single yarn which has the highest count shall be taken to be the count of each basic single yarn;
  - (c) In the case of fabrics manufactured from cotton and other yarn, the other yarn shall, for the aforesaid purposes, be deemed to be cotton yarn;
  - (d) Where, there are yarns of different counts in warp or weft or both, the count of the yarn which has the highest count shall be taken to be the count of warp or weft, as the case may be;
  - (e) The average count of such yarn (other than in the case of round mesh mosquito netting) shall be obtained by applying the following formula, namely:—

[(Count of warp $\times$  No. of ends per 25.4 mm. in the reed) + (Count of weft $\times$ No. of picks per 25.4 mm.)]  $\div$  [(No. of ends per 25.4 mm.) in the reed + No. of picks per 25.4 mm.)]

the result being rounded off, wherever necessary, by treating any fraction which is one half or more as one, and disregarding any fraction which is less than one half; and

(f) In the case of round mesh mesquito netting, the average count of yarn shall be obtained by applying the following formula, namely:—

[(Count of warp×No. of ends per 25.4 mm.) [+] (Count of weft×No. of picks per 25.4 mm.×1.4] ÷ [(No. of ends per 25.4 mm.)]+[(No. of picks 25.4 mm.×1.4)], the result being rounded off, wherever necessary, by treating any fraction which is one half or more as one, and disregarding any fraction which is less than one half.

- 13. (A) "Waste yarn (hard waste)" in case of yarn of heading Nos. 50.02, 52.01, 53.01, 53.03 and sub-heading No. 5503.39 shall mean—
  - (i) Short lengths of such yarn in tangled mass not capable of being disentangled without considerable labour; or
  - (ii) Short lengths not exceeding three metres of such yarn even if they are not in the form of an entangled mass.
- (B) "Waste yarn (hard waste)" in the case yarns of heading No. 51.04 or sub-heading No. 5503.31 shall mean—
  - (i) Irregular in shape;
  - (ii) Loosely spun;

- (iii) Established by visual examination and handling that the yarn is incapable of being directly used for waving into fabrics; and
- (iv) Facked in gunny bags.
- (C) "Waste" of sub-heading Nos. 5302.10, 5607.11 shall mean—
  - (i) a tangled mass of short lengths, not capable of being disentangled without considerable labour; or
  - (ii) Short lengths not exceeding 1.8 metres, even if they are not in the form of a tangled mass and not capable of being used in the manufacture of rope or cord.
- 14. (A) Products of Chapter 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under Note 2 above for the classification of a product of Chapters 50 to 55 consisting of the same textile materials.
  - (B) For the application of this rule: —
  - (i) in the case of textile products consisting of a base fabric and a pile or looped surface, no account shall be taken of the base fabric;
  - (ii) in the case of embroidery, only the base fabric shall be taken into account.

#### Notes

- 1. In relation to products of heading Nos. 52.03 and 52.04, sizing beaming, warping, wrapping, winding or reeling, or any one or more of these processes. or the conversion of any form of the said products into another form of such products shall amount to 'manufacture'. The duty on sized yarn shall be charged on the basis of its weight before sizing.
- 2. In relation to products of heading Nos. 52.00 to 52.12, bleaching mercerising, dyeing, printing, water-proofing, shrink-proofing, organdie processing or any other process or any one or more of these processes shall amount to 'manufacture'.
- 3. For the purposes of sub-heading Nos. 5206.10, 5207.10, 5208.11 and 5208.21, the expression 'controlled fabrics' covers cotton fabrics, -
  - (a) which answer to the description of 'Controlled Dhoti', Controlled Saree', 'Controlled Long Cloth', 'Controlled Shirting', or 'Controlled Drill' as defined from time to time by the Textile Commissioner under the Cotton Textiles (Control) Order, 1948,
  - (b) for which maximum ex-factory prices have been specified by the Textile Commissioner under the said Order, and
  - (c) which are not supplied by the factory in which they are manufactured or processed to any industrial concern, and if such fabrics are so supplied, the purchasing industrial concern certifies that the fabrics so purchased by it shall be used exclusively for wearable purposes and not for any other purposes.
- 4. For the purposes of sub-heading Nos. 5206.20 and 5207.20, the expression 'Specified Drill' covers cotton fabrics.
  - (a) which answer to the description of 'Controlled Drill' as defined from time to time by the Textile Commissioner under the Cotton Textiles (Control) Order, 1948, and
  - (b) for which maximum ex-factory prices have not been specified by the Textile Commissioner under the said Order.
- 5. In this Chapter, the expression 'independent processor' means a manufacturer who is engaged exclusively in the processing of fabrics with the aid of power and who has no proprietary interest

in any factory engaged in the spinning of yarn or weaving of cotton fabrics.

#### CHAPTER 55

## Man-Made Staple Fibres Notes

- 1. For the purposes of Heading Nos. 55.01 and 55.02, synthetic filament tow and artificial filament tow apply only to tow, consisting of parallel filaments of a uniform length equal to the length of the tow, meeting the following specifications;
  - (a) Length of tow exceeding 2 metres;
  - (b) Twist less than 5 turns per metre;
  - (c) Measuring per filament less than 60 deniers; and
  - (d) Total measurement of tow more than 18,000

In addition, in the case of synthetic filament tow: the tow must be drawn, that is to say, be incapable of being stretched by more than 100% of its length.

- 2. In relation to products of Heading Nos. 55.08 to 55.12, bleaching, dyeing, printing, shrink-proofing, tentering, heat-setting, crease resistant processing or any other process or any one or more of these processes shall amount to 'manufacture'.
- 3. Sub-heading Nos. 5503.11, 5503.12, 5503.19 and 5503.20 apply only to waste arising in, or in relation to, the manufacture of man-made staple fibres.

	e manu			÷		Yarn, not containing or containing not more than one sixth by weight of other synthetic staple fibres, calculated on the total fibre content	Nil Rs. 18 per

- (b) Textile products of Chapter 58: (c) Natural or artificial abrasive powder or grain, on a backing of felt or nonwovens (Chapter 68);
- (d) Agglomerated or reconstituted mica, on a backing of felt or nonwovens (Chapter 68);
- (e) Metal foil on a backing of felt or nonwovens (Section XV).
- 2. The term 'felt' includes needleloom felt and fabrics consisting of a web of textile fibres the cohesion of which has been enhanced by a stitch-bonding process using fibres from the web itself.
- 3. Heading Nos. 56.02 and 56.03 cover respectively felt and nonwovens, impregnated, coated, covered or laminated with plastics or rubber whatever the nature of these materials (compact or cellular).

Heading No. 56.03 also includes nonwovens in which plastics or rubber forms the bonding substance.

Heading Nos. 56.02 and 56.03 do not however, cover:

- (a) Felt, impregnated, coated, covered or laminated with plastics or rubber, containing 50% or less by weight of textile material or felt completely embedded in plastics or rubber (Chapter 39 or Chapter 40);
- (b) Nonwovens, either completely embedded in plastics or rubber, or entirely coated or covered on both sides with such materials, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of colour (Chapter 39 or Chapter 40); or
- (c) Plates, sheets or strips of cellular plastics or cellular rubber combined with felt or nonwovens, where the textile is present merely for reinforcing purposes (Chapter 39 or Chapter 40).
- 4. Heading No. 56.04 does not cover textile yarn, or strip or the like of heading No. 54.06 or 54.07, in which the impregnation, coating or covering cannot be seen with the naked eye (usually Chapters 50 to 55); for the purpose of this provision, no account should be taken of any resulting change of colour.

#### CHAPTER 57

## Carpets and other textile foor coverings Notes

- 1. For the purposes of this Chapter, the term 'carpets and other textile floor coverings' means floor coverings in which textile materials serve as the exposed surface of the article when in use and includes article having the characteristics of textile floor coverings but intended for use for other purposes.
- 2. This Chapter does not cover floor covering underlays.
- 3. For the purpose of heading No. 57.01, the term, 'machines' shall not include manually operated looms and manually operated implements, used independently by hand, such as hooking guns, tufting guns and knitting guns.

Headin No.	g Sub- heading No.	Description of goods	Rate of duty

## Special woven fabrics; tufted textile fabrics; lace; embroidery

- 1. This Chapter does not apply to textile fabrics referred to in Note 1 to Chapter 59, impregnated, coated, covered or laminated and other goods of Chapter 59.
- 2. Heading No. 58.01 also includes woven weft pile fabrics which have not yet had the floats cut, at which stage they have no pile standing up.
- 3. For the purpose of heading No. 58.03, 'gauze' means a fabric with a warp composed wholly or in part of standing or ground threads and crossing or doup threads which cross the standing or ground threads making a half turn, a complete turn or more to form loops through which weft threads pass. —
- 4. Heading Nos. 58.04 does not apply to knitted net fabrics of twine, cordage or rope, of heading No. 56.08.
- 5. In heading No. 58.05, the expression 'embroidery' means inter alia embroidery with metal or glass thread on a visible ground of textile fabric, and sewn applique work of sequins, beads or ornamental motifs of textile or other materials. The heading does not apply to needlework tapestry.
- 6. In addition to the products of heading No. 58.06, this Chapter also includes articles made of metal thread and of a kind used in apparel, as furnishing fabrics or for similar purposes.
- 7. The processes specified in sub-heading Nos. 5802.12 and 5802.14 shall amount to 'manufacture'.

#### CHAPTER 59

Impregnated, coated, covered or laminated textile fabrics; textile articles of a kind suitable for Industrial use

1. Except where the context otherwise requires, for the purposes of this Chapter the expression 'textile fabrics' applies only to the woven fabrics of Chapters 50 to 55 and gauze (heading No. 58.03), narrow woven fabrics (heading No. 58.06) braids and ornamental trimmings in the piece, and the knitted or crocheted fabrics of Chapter 60.

## Heading No. 59.03 applies to:

- (a) Textile fabric, impregnated, coated, covered or laminated with plastics, whatever the weight per square metre and whatever the nature of the plastic material (compact or cellular), other than:
  - (1) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually Chapters 50 to 55, 58 or 60); for the purposes of this provision, no account should be taken of any resulting change of colour;
  - (2) Products which cannot, without fracturing, be bent manually around a cylinder of a diameter of 7mm. at a temperature between 15°C and 30°C (usually Chapter 39);
  - (3) Products in which the textile fabric is either completely embedded in plastics or entirely coated or covered on both sides with such material, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of colour (Chapter 39);
  - (4) Fabrics partially coated or partially covered with plastics and bearing designs resulting from these treatments (usually Chapters 50 to 55, 58 or 60);
  - (5) Plates, sheets or strips of cellular plasties, combined with textile fabric, where the textile fabric is present merely for reinforcing purposes (Chapter 29);
- (b) Fabrics made from yarn, strip or the like, impregnated, coated covered or sheathed with plastics, of heading No. 56.04.
- 3. For the purposes of heading No. 59.05, the expression 'rubberised textile fabrics' means:
  - (a) Textile fabrics impregnated, coated, covered or laminated with rubber,
    - (i) Weighing not more than 1,500 g/m²; or

- (ii) Weighing more than 1,500 g/m² and containing more than 50 per cent. by weight of textile material;
- (b) Fabrics made from yarn, strip or the like, impregnated, coated, covered or sheathed with rubber of heading No. 56.04;
- (c) Fabrics composed of parallel textile yarns agglomerated with rubber, irrespective of their weight per square metre; and
- (d) Plates, sheets or strip, of cellular rubber, combined with textile fabric, where the textile fabric is more than mere reinforcement, other than quilted textile products.
- 4. Heading No. 59.06 does not apply to:
- (a) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually Chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of colour;
- (b) Fabrics painted with designs (other than painted canvas being theatrical scenery, studio backcloths or the like);

However, imitation pile fabrics remain classified in this heading.

- (c) Fabrics finished with normal dressings having a basis of amylaceous or similar substan-
- (d) Wood veneered on a backing of textile fabrics (Chapter 44);
- (e) Natural or artificial abrasive powder or grain, on a backing of textile fabrics (Chapter 68);
- (f) Agglomerated or reconstituted mica, on a backing of textile fabrics (Chapter 68); or
- (g) Metal foil on backing of textile fabrics (Section XV).
- 5. Heading No. 59.08 does not apply to:
- (a) Transmission or conveyor belts or belting of a thickness of less than 3 mm; or
- (b) Transmission or conveyor belts or belting of textile fabric impregnated, coated, covered or laminated with rubber or made from textile yarn or cord impregnated, coated, covered or sheathed: with rubber (Chapter 40).
- 6. Heading No. 59.09 applies to the following goods, which do not fall in any other heading of
  - (a) Textile products in the piece, cut to length or simply cut to rectangular (including square) shape (other than those having the character of the products of heading Nos. 59.07 and 59.08), the following only:-
    - (i) Textile fabrics, felt and felt-lined woven fabrics, coated, covered or laminated with rubber, leather or other material, of a kind used for eard clothing, and similar fabrics of a kind used for other technical purposes;
      - (ii) Bolting cloth;
    - (iii) Straining cloth of a kind used in oil presses or the like, of textile material or of human hair;
    - (iv) Flat woven textile fabric with multiple warp or weft, whether or not felted, impreg-

## Knitted or Crocheted Fabrics

#### Notes

- 1. This Chapter does not cover:
  - (a) Crochet lace (Chapter 58);
- (b) Labels, badges or similar articles, knitted or crocheted (Chapter 58);
- (c) Knitted or crocheted fabrics, impregnated, coated, covered or laminated, of Chapter 59. However, knitted or crocheted pile fabrics, impregnated, coated, covered or laminated, remain classified in this Chapter.
- 2. This Chapter also includes fabrics made of metal thread and of a kind used in apparel, as furnishing fabrics or for similar purposes.
- 3. Throughout this Schedule, any reference to 'knitted goods' includes a reference to stitch-bonded goods in which the chain stitches are formed of textile yarn.

## Glass and glassware

- 1. This Chapter does not cover:
- (a) Goods of heading No. 32.07 (for example, vitrifiable enamels and glazes, glass frit, other glass in the form of powder, granules or flakes);
- (b) Articles of Chapter 71 (for example, imitation jewellery);
- (c) Optical fibre cables, electrical insulators or fittings or insulating material (Chapter 85);
- (d) Optical fibres, optically worked optical elements, hypodermic syringes artificial eyes, thermometres, barometres, hydrometres or other articles of Chapter 90;
- (e) Lamps and lighting fittings (other than glass shells, glass globes and glass chimneys for lamps and lanterns), illuminated signs, illuminated name-plates and the like, having a permanently fixed light source, and parts thereof of Chapter 94;
- (f) Toys, games and sports requisites, christmas tree ornaments or other articles, etc., of Chapter 95 (excluding glass eyes without mechanism for dolls or for other articles of Chapter 95); or
- (g) Buttons, fitted vacuum flasks scent or similar sprays or other articles of Chapter 96.
- 2. For the purposes of heading No. 70.02:
- (a) Glass is not regarded as 'worked' by reason of any process it has undergone before annealing;

OF HEADING 70.02 BENT, EDGE-

- (b) Cutting to shape does not affect the classification of glass in sheets;
- (c) The expression 'absorbent or reflecting layer' means microscopically thin coating of metal or of a chemical compound (e.g. metal oxide) which absorbs, for example, infra-red light or improves the reflecting qualities of the glass while still allowing it to retain a degree of transparency or translucency.
- 3. The products referred to in heading No. 70.03 remain classified in that heading whether or not they have the character of articles.
- 4. For the purposes of heading No. 70.14, the expression 'glass wool' means:
  - (a) Mineral wools with a silica (Sio₂) content not less than 60 per cent. by weight;
  - (b) Mineral wools with a silica (Sio) content less than 60 per cent. but with an alkaline oxide (K₂ O or Na²O) content exceeding 5 per cent. by weight or boric oxide (B₂ O₃) content exceeding 2 per cent. by weight.

Mineral wools which do not comply with the above specifications fall in heading No. 68.03.

## SECTION XIV

Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal, and articles thereof; imitation jewellery; coin

## CHAPTER 71

Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal, and articles thereof; imitation jewellery; coin

- .1. This Chapter does not cover:
- (a) Amalgams of precious metal, and colloidal precious metal of Chapter 28;
- (b) Sterile surgical suture materials, dental fillings and other goods of Chapter 30:
- (c) Articles of Chapter 32 (for example, lustres);
  - (d) Handbags and other articles of Chapter 42;
  - (e) Articles of Chapter 43:
- (f) Goods of Section XI (textiles and textile articles);
- (g) Footwear, headgear and other articles of Chapter 64 or 65;
- (h) Umbrellas, walking-sticks and other articles of Chapter 66;
- (i) Abrasive goods of Chapter 68 or Chapter 82, containing dust or powder of precious or semi-precious stones (natural or synthetic); articles of Chapter 82 with a working part of precious or semi-precious stones (natural, synthetic or reconstructed); machinery, mechanical appliances and electrical goods, and parts thereof, of Section XVI. However, articles and parts thereof, wholly of precious or semiprecious stones (natural, synthetic

- or reconstructed) remain classified in this Chapter, except unmounted worked sapphires and diamonds for styli (heading No. 85.22);
- (j) Articles of Chapter 90, 91 or 92 (scientific instruments, clocks and watches, musical instruments);
  - (k) Arms or parts thereof (Chapter 93);
  - (1) Goods covered by Note 2 to Chapter 95; or
- (m) Goods of Chapter 96 other than those of heading Nos. 96.01 to 96.06 or 96.15.
- 2. All articles consisting wholly or partly:
- (a) Of natural or cultured pearls or of precious or semiprecious stones (natural, synthetic or reconstructed), or
- (b) Of precious metal or of metal clad with precious metal, are to be classified in this Chapter.
- 3. (a) The expression 'precious metal' means silver, gold and platinum.
- (b) The expression 'platinum' means platinum, iridium, osminum, palladium, rhodium and ruthenium.
- (c) The expression 'precious or semi-precious stones' does not include any of the substances specified in Note 2(b) to Chapter 96.
- 4. For the purposes of this Chapter, any alloy (including a sintered mixture and an inter-metallic compound) containing precious metal is to be treated as an alloy of precious metal if any one precious metal constitutes as much as 2 per cent. by weight, of the alloy.
- 5. Except where the context otherwise requires, any reference in the Schedule to precious metals or to any particular precious metal includes a reference to alloys treated as alloys of precious metal, but not to metal clad with precious metal or to base metal or non-metals plated with precious metal.
- 6. Throughout this Schedule, the expression 'metal clad with precious metal' means material made with a base of metal upon one or more surfaces of which there is affixed by soldering, brazing, welding, hotrolling or similar mechanical means a covering of precious metal. Except where the context otherwise requires, the expression also covers base metal inlaid with precious metal.
- 7. For the purposes of heading No. 71.01, the expression 'articles of jewellery (other than imitation jewellery)' means:
  - (a) Any small objects of personal adornment (gem-set or not) (for example, rings, bracelets, necklaces, brooches, ear-rings, watchchains, fobs, pendants, tie-pins, cuff-links, dress-studs, religious or other medals and (insignia); and
  - (b) Articles of personal use of a kind normally carried in the pocket, in the handbag or on the person (cigarette cases, powder boxes, chain purses, cachou boxes).
- 8. For the purposes of heading No. 71.01, the expression 'imitation jewellery' means articles of jewellery within the meaning of Note 7(a) above (but not including buttons or other articles of heading No. 96.06, or dress-combs, hair-slides or the like, and

hair pins, of heading No. 96.15), not incorporating natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed) nor (except as plating or as minor constituents) precious metal or metal clad with precious metal.

## SECTION XV

## Base metals and articles of base metal Notes

- 1. This Section does not cover:
- (a) Prepared paints, inks or other products with a basis of metallic flakes or powder of Chapter 65;
- (b) Ferro-cerium or other pyrophoric alloys of Chapter 36;

- (c) Headgear or parts thereof of Chapter 65;
- (d) Umbrella frames or other goods of chapter 66;
- (e) Goods of Chapter 71 (for example, precious metal alloys, base metal clad with precious metal, imitation jewellery);
- (f) Articles of Section XVI (machinery, mechanical appliances and electrical goods);
- (g) Assembled railway or tramway track of Chapter 86 or other articles of Section XVII (vehicles, ships and boats, aircraft);
- (h) Instruments or apparatus of Section XVIII, including clock or watch springs;
- (i) Lead shot prepared for ammunition of Chapter 93 or other articles of Section XIX (arms and ammunition);
- (j) Articles of Chapter 94 (for example, furniture, mattress supports, lamps and lighting fittings, prefabricated buildings);
- (k) Articles of Chapter 95 (for example, toys, games, sports requisites); or
- (1) Hand sieves, buttons, pens, pencil-holders, pen-holders, pen-nibs or other articles of Chapter 96.
- 2. Throughout this Schedule, the expression "parts of general use" means:
  - (a) Articles of iron and steel of Chapter 73, namely, tube or pipe fittings; stranded wire, rope, plaited bands, slings and the like, cables, not electrically insulated; chains and parts thereof; nail tacks, drawing pins, corrugated nails, staples (other than those of heading No. 83.05) and similar articles, rivets, cotters, cotterpins, washers (including spring washers) and similar articles;
  - (b) Similar articles as enumerated in (a) above of other base metal:
  - (c) Springs and leaves for springs, of base metal, other than clock or watch springs (Chapter 91); and
  - (d) Articles of heading Nos. 83.01, 83.02, 83.07, 83.08, 83.13 and frames and mirror of heading No. 83.15. In Chapter 73 to 76 and Chapters 78 to 82, references to parts of goods do not include references to parts of general use as defined above.

Subject to the preceding paragraph and to Note 1 to Chapter 83, the goods of Chapter 82 or Chapter 83 are excluded from Chapters 72 to 76 and Chapters 78 to 81.

- 3. Classification of alloys (other than ferro-alloys as defined in Chapter 72):—
  - (a) An alloy of base metals is to be classified as an alloy of the metal which predominates by weight over each of the other metals.
  - (b) An alloy composed of base metals of this Section and of elements not falling within this Section is to be treated as an alloy of base metals of this Section if the total weight of such metals cause or exceeds the total weight of the other elements present.

- (c) In this section, the term alloys includes sintered mixtures of metal powders, heterogenous intimate mixtures obtained by melting (other than cermets) and intermetallic compounds.
- 4. Unless the context otherwise requires, any reference in this Schedule to a base metal includes a reference to alloys which, by virtue of Note 3 above, are to be classified as alloys of that metal.
- 5. Classification of composite articles: Except where the headings otherwise require, articles of base metal (including articles of mixed materials treated as articles of base metal under the Interpretative Rules) containing two or more base metals are to be treated as articles of the base metal predominating by weight over each of the other metals for this purpose:
  - (a) Iron and steel, or different kinds of iron or steel, are regarded as one and the same metal;
  - (b) An alloy is regarded as being entirely composed of that metal as an alloy of which, by virtue of Note 3 it is classified; and
  - (c) A cermet of heading No. 81.01 is regarded as a single base metal.

### Iron and Steel

#### Notes

In this Chapter, the following expressions have the meanings hereby assigned to them:

(i) IRON:
Pig iron, cast iron and spiegeleisen.

## (ii) PIG IRON AND CAST IRON:

Ferrous products containing, by weight.

1.9 per cent., or more of carbon, and which may contain one or more of the following elements within the weight limits specified:—

less than 15 per cent. phosphorus, not more than 8 per cent. silicon, not more than 6 per cent. manganese, not more than 30 per cent. chromium, not more than 40 per cent. tungsten,

### and

an aggregate of not more than 10 per cent. of other alloy elements (for example, nickel, copper, aluminium, titanium, vanadium, molybdenum) but does not include ferrous alloys known as 'non-distorting tool steels' containing by weight, 1.9 per cent. or more of carbon and having the characteristics of steel;

## (iii) SPIEGELEISEN:

Ferrous products containing, by weight, more than 6 per cent. but not more than 30 per cent. of manganese and otherwise conforming to the specifications mentioned in (ii) above.

## (iv) FERRO-ALLOYS:

Alloys of iron (other than master alloys) which are not usefully malleable and are commonly used as raw material in the manufacture of ferrousmetals and which contain, by weight, separately or together:

more than 8 per cent. of silicon, or more than 30 per cent. of manganese or

more than 30 per cent. of chromium,

01

more than 40 per cent. of tungsten, or a total of more than 10 per cent. of other alloy elements (aluminimum, titanium, vanadium, copper, molybdenum, niobium or other elements, subject to a maximum content of 10 per cent. in case of copper), and which contain, by weight not less than 4 per cent. in the case of ferro-alloys containing silicon, not less than 8 per cent. in the case of ferro-alloys containing manganese but no silicon or not less than 10 per cent. in other cases, of the element iron.

## (v) PUDDLED BARS AND PILINGS:

Products for rolling, forging or re-melting obtained either —

- (a) by shingling balls of puddled iron to remove the slag arising during puddling, or
- (b) by roughly welding together by means of hot roling, packets of scrap iron or steel or puddled iron.

## (vi) INGOTS:-

Products for rolling or forging obtained by casting into moulds.

## (vii) BLOOMS AND BILLETS:—

Semi-finished products of rectangular section, of a cross-sectional area exceeding 1,225 square millimetres and of such dimensions that the thickness exceeds one-quarter of the width.

## (viii) SLABS AND SHEET BARS (INCLUD-ING TIN PLATE BARS):—

Semi-finished products of rectangular section, of a thickness not less than 6 millimetres, of width not less than 150 millimetres and of such dimensions that the thickness does not exceed one-quarter of the width.

## (ix) WASTE AND SCRAP: —

Waste and scrap of iron or steel fit only for the recovery of metal or for use in the manufacture of chemicals, but does not include slag, ash and other residues.

## (x) HOLLOW MINING DRILL STEEL: -

Steel hollow bars of any cross-section, suitable for mining drills, of which the greatest external dimension exceeds 15 millimetres but does not exceed 50 millimetres, and of which the greatest internal dimension does not exceed one-third of the external dimension.

343

No L

1

## (xi) ANGLES, SHAPES AND SECTIONS:—

Products which do not have cross-sections in the form of circles, segments of circles, ovals, isosceles triangles, rectangles, hexagons, octagons or quadrilaterals with only two sides parallel and the other two sides equal, and which are not hollow.

### (xii) SKELP:-

Hot-rolled narrow strip of width not exceeding 600 millimetres with rolled (square, slightly round or bevelled) edge.

## (xiii) HOOPS:-

Hot-rolled flat products in rectangular cross-section of thickness less than 3 millimetres and width less than 75 millimetres.

## (xiv) STRIPS:-

Hot or cold-rolled products, rolled approximately in rectangular cross-section, of thickness usually 10 millimetres and below, with mill, rolled, trimmed or sheared edges and supplied in coil or flattened coil (straight length) form but excludes hoop and skelp.

## (xv) COILS FOR RE-ROLLING:-

Coiled semi-finished hot-rolled products, of a rectangular section, not less than 1.5 millimetres thick, of a width exceeding 500 millimetres and of a weight not less than 500 kilograms per piece.

## (xvi) UNIVERSAL PLATES:-

Products of rectangular section, hotrolled lengthwise in a closed box or universal mill, of a thickness exceeding 5 millimetres but not exceeding 100 millimetres, and of a width exceeding 150 millimetres but not exceeding 1200 millimetres.

## (xvii) PLATE:-

A hot or cold rolled flat product, rolled from an ingot or slab or sheet bar or produced by cold reduction of coils, in rectangular cross-section of thickness 5 millimetres and above but not exceeding 100 millimetres and width 600 millimetres and above, and supplied in straight lengths.

## (xviii) SHEET:-

A hot or cold-rolled flat product, rolled in rectangular section of thickness below 5 millimetres and supplied in straight lengths, the width of which is at least hundred times the thickness and the edges are either milled, trimmed, sheared or flame cut and includes a corrugated sheet.

## (xix) WIRE:-

Cold drawn products of solid section of any cross-sectional shape, of which no cross-sectional dimension exceeds 13 millimetres.

## (xx) BARS (INCLUDING FLATS) AND RODS (INCLUDING WIRE RODS):—

Products of solid section which do not conform to the entirety of any of the definitions at (vii), (viii), (xii), (xiii) (xiv), (xv), (xvi), (xviii), (xviii) and (xix) above, and which have cross-sections in the shape of circles, segments of circles, ovals, isosceles triangles, rectangles, hexagons, octagons or quadrilaterals with only two sides parallel and the other sides equal.

### (xxi) FLATS:—

Finished products, generally of rectangular cross-section, having rolled edges only (square or slightly rounded), of controlled contour and of thickness 3 millimetres and over, width 400 millimetres and below and supplied in straight lengths and includes flat bars wits bulb that has swelling on one or two faces of the same edge and a width of less than 400 millimetres.

2. Heading Nos. 72.11 and 72.12 apply only to products covered herein which are not clad.

the width or the maximum cross-sectional dimension exceeds 6 millimetres and which, if they are flat, have a thickness exceeding one-tenth of the width; or

(b) any cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or de-scaling). provided that they have not thereby assumed the character of any article or product falling under any other heading.

## (iv) WIRE.

Any rolled, extruded or drawn product of solid and uniform cross-section, of which no cross-sectional dimension exceeds 6 millimetres, but does not include articles falling under heading No. 85.44.

## (v) PLATE:

A flat product whose thickness exceeds 10 millimetres and the width exceeds 300 millimetres.

## (vi) SHEET:

A flat product, cut to length, whose thickness exceeds 0.15 millimetre but does not exceed 10 millimetres, and the width exceeds 300 millimetres and includes a corrugated or troughed sheet.

## (vii) STRIP:

A flat product whose thickness exceeds 0.15 millimetre but does not exceed 10 millimetres of any width and generally not cut to length and usually in coil.

## (viii) FOIL:

A flat product of thickness (excluding any backing) not exceeding 0.15 millimetre, of any width, generally not cut to length and usually in coil, whether or not embossed, cut to shape, perforated, coated, printed or backed with paper or other reinforcing material.

### (ix) POWDERS AND FLAKES:

All types of powders and flakes, but does not include cement copper and powders and flakes prepared as colours, pigments, paints or the like.

## (x) PIPES AND TUBES:

A hollow product of uniform cross-section and wall tickness having a continuous periphery produced by drawing, casting or extrusion, welding or brazing process.

### (xi) SHELLS AND BLANKS:

A hollow cylinder produced by extrusion, rotary piercing or casting for subsequent drawing into pipe or tube.

## (xii) HOLLOW SECTION:

A section which is normally extruded, drawn or cast, the cross-section of which completely encloses a void or voids.

- 2. Heading No. 74.01 includes wire bars and billets with their ends tapered or otherwise worked simply to facilitate their entry into machines for converting them into, for example, wire rods or tubes.
- 3. Heading No. 74.03, 'brass' means a copper alloy having a zinc content of five per cent. or more by weight.
- 4. In heading No. 74.04, 'blank' means a piece of plate, sheet or strip, in any shape, including a circle, prepared for subsequent fabrication.

#### CHAPTER 76

## Aluminium and articles thereof Notes

1. In this Chapter, the following expressions have the meanings hereby assigned to them:—

## (i) WASTE AND SCRAP:

Waste and scrap metal fit only for the recovery of metal by remelting or for use in the manufacture of chemicals, but does not include sludge, dross, scalings, skimmings, ash and other residues.

## (ii) WROUGHT BARS, RODS (INCLUDING WIRE RODS):

- (a) any extruded, rolled, drawn or forged products of solid section, of which the width or the maximum cross-sectional dimension exceeds 6 milimetres and which, if they are flat, have a thickness exceeding one-tenth of the width; or
- (b) any cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or de-scaling), provided that they have not thereby assumed the character of any article or product falling under any other heading.

## (iii) WROUGHT ANGLES, SHAPES AND SECTIONS:

- (a) any extruded, rolled, drawn or forged products of solid section (other than round, rectangular, square and hexagonal), of which the width or the maximum cross-sectional dimension exceeds 6 millimetres and which, if they are flat, have a thickness exceeding one-tenth of the width; or
- (b) any cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or de-scaling), provided that they have not thereby assumed the character of any article or product falling under any other heading.

## (iv) WIRE:

Rolled, extruded or drawn product, of solid and uniform cross-section, of which no crosssectional dimension exceeds 6 millimetres, but does not include articles falling under heading No. 85.44.

#### (v) PLATE:

A flat product of rectangular section, generally cut to length, whose thickness is 6 millimetres and above.

## (vi) SHEET:

A flat product of rectangular section, generally cut to length, whose thickness exceeds 0.15 millimetre but is below 6 millimetres and includes a corrugated or troughed sheet.

## (vii) STRIP:

A product of rectangular section, supplied in coil or flat form, of thickness exceeding 0.15 millimetre but below 6 millimetres, with length more than eight times the width.

## (viii) FOIL:

A flat product of rectangular section, of thickness (excluding any backing) not exceeding 0.15 millimetre, whether or not embossed, cut to shape, perforated, coated, printed or backed with paper, paper board, plastics or other reinforcing materials.

#### (ix) PIPES AND TUBES:

A hollow product of uniform cross-section having a continuous periphery produced by drawing, casting, extrusion or welding process.

## (x) HOLLOW SECTION:

A section which is normally extrued, drawn or cast and the cross-section of which completely encloses a void or voids.

## (xi) SEMI-HOLLOW SECTION:

A section which is normally extruded, drawn or cast and any part of whose cross-section is a partially enclosed void, the area of which is substantially greater than the square of the width of the gap.

- 2. In heading No. 76.05, 'blank' means a piece of plate, sheet or strip, in any shape, including a circle, prepared for subsequent fabrication.
- 3. Heading No. 76.07 also includes aluminium powders mixed with other base metal powders, but does not include powders or flakes, prepared as pigment paste, colours, paints or the like.

#### CHAPTER 79

## Zinc and articles thereof

#### Notes

1. In this Chapter, the following expressions have the meanings hereby assigned to them:

## (i) WASTE AND SCRAP:-

Waste and scrap metal fit only for the recovery of metal by remelting or for use in the manufacture of chemicals, and includes dross and ash.

## (ii) WROUGHT BARS AND RODS (INCLUDING WIRE RODS):—

- (a) any extruded, rolled, drawn or forged products of solid section, of which the width or the maximum cross-sectional dimension exceeds 6 millimetres and which, if they are flat, have a thickness exceeding one-tenth of the width; or
- (b) any cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or de-scaling), provided that they have not thereby assumed the character of any article or product falling under any other heading.

## (iii) WROUGHT ANGLES, SHAPES AND SECTIONS:

- (a) any extruded, rolled, drawn or forged products of solid section (other than round, rectangular, square and hexagonal), of which the width or the maximum cross-sectional dimension exceeds 6 millimetres and which, if they are flat, have a thickness exceeding one-tenth of the width; or
- (b) any cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (other-

wise than by simple trimming or de-scaling), provided that they have not thereby assumed the character of any article or product falling under any other heading.

#### (iv) WIRE:

Any rolled, extruded or drawn product of solid and uniform cross-section, of which no cross-sectional dimension exceeds 6 millimetres.

## (v) PLATE:

A flat product, cut to length, whose thickness exceeds 10 millimetres and width exceeds 500 millimetres.

#### (vi) SHEET:

A flat product whose thickness exceeds 0.15 millimetre, but does not exceed 10 millimetres, and width exceeds 500 millimetres; and includes a corrugated or troughed sheet.

## (vii) STRIP:

A flat product, generally not cut to length, whose thickness exceeds 0.15 millimetre but does not exceed 10 millimetres, and width does not exceed 500 millimetres.

#### (viii) FOIL:

A flat product whose thickness (excluding any backing) not exceeding 0.15 millimetre, whether or not embossed, cut to shape, perforated, coated, printed or backed with paper or other reinforcing material.

### (ix) POWDERS AND FLAKES:

All types of powders and flakes, including dust, but excluding powders and flakes prepared as colours, pigments, paints or the like.

## (x) PIPES AND TUBES:

A hollow product of uniform cross-section having a continuous periphery produced by drawing, casting or extrusion process.

## (xi) HOLLOW SECTION:

A section which is normally extruded, drawn or cast and the cross-section of which completely encloses a void or voids.

2. In heading No. 79.04, 'blank' means a piece of plate, sheet or strip in any shape, including a circle, prepared for subsequent fabrication.

## CHAPTER 82

## Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal Notes

1. Apart from blow lamps, portable forges, grinding wheels with frameworks, manicure or pedicure sets, and goods of heading No. 82.04, this Chapter covers only goods with a blade, working edge, working surface or other working part of:

### (a) Base metal;

(b) Metal carbides or cermets;

- (c) Precious or semi-precious stones (natural, synthetic or reconstructed) on a support of base metal carbide or cermet; or
- (d) Abrasive materials on a support of base metal provided that the articles have cutting teeth, flutes, grooves, or the like of base metal, which retain their indentity and function after the application of the abrasive.
- 2. Parts of base metal of the articles of this Chapter are to be classified with the articles of which they are parts, except parts separately specified as such and tool-holders for hand tools (heading No. 84.66). However, parts of general use as defined in Note 2 to Section XV are in all cases excluded from this Chapter.

Heads, blades and cutting plates for electric shavers or electric hair clippers are to be classified in heading No. 85.10.

#### CHAPTER 83

#### Miscellaneous Articles of Base Metal

- 1. For the purposes of this Chapter, parts of base metal are to be classified with their parent articles. However, 'Parts of general use' as defined in Note 2 of Section XV are not to be taken parts of goods of this Chapter.
- 2. In relation to sub-heading No. 8312.11, the process of lacquering or printing or both of plain containers shall amount to 'manufacture'.
- 3. In heading No. 83.13, the expression 'Bolts and nuts, threaded or tapped, and screws' shall include bolts ends, screw studding, self-tapped screws, screw hooks and screw rings.

# SECTION XVI

Machinery and mechanical appliances; electrical equipment; parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles

### Notes

### 1. This Section does not cover:

- (a) Transmission or conveyor belts or belting, of plastics of Chapter 39, or of vulcanised rubber (heading No. 40.10); or other articles of a kind used in machinery or mechanical or electrical appliances or for other technical uses, of unhardened vulcanised rubber (heading No. 40.17);
- (b) Articles of leather or of composition leather heading No. 42.01) or of furskin (heading No. 43.01), of a kind used in machinery or mechanical appliances or for other technical uses:
- (c) Bobbins, spools cops, cones, cores, reels or similar supports, of any material (for example, Chapter 39, 40, 44 or 48 or Section XV);
- (d) Perforated cards for Jacquard or similar machines (for example, Chapter 39 or Chapter 48 or Section XV);
- (e) Transmission or conveyor belts of textile material (heading No. 59.08) or other articles of textile material for technical uses heading No. 59.09);
- (f) Precious or semi-precious stones (natural, synthetic or reconstructed), or articles wholly of such stones of heading No. 71.01, except unmounted worked sapphires and diamonds for styli (heading No. 85.22);

- (g) Parts of general use, as defined in Note 2 to Section XV, of base metal (Section XV), or similar goods of plastics (Chapter 39);
  - (h) Drill pipe (heading No. 73.03);
- (i) Endless belts of metal wire or strip (Section XV);
  - (j) Articles of Chapter 82 or Chapter 83;
  - (k) Articles of Section XVII;
  - (1) Articles of Chapter 90;
- (m) Clocks, watches or other articles of Chapter 91;
- (n) Interchangeable tools of heading No. 82.02 or brushes of a kind used as parts of machines of heading No. 96.03; similar interchangeable tools are to be classified according to the constituent material of their working part (for example, in Chapter 40, 42, 43, 45 or 59 or heading No. 68.01 or heading No. 69.07); or
  - (o) Articles of Chapter 95.
- 2. Subject to Note 1 to this Section, Note 1 to Chapter 84 and to Note 1 to Chapter 85, parts of machines (not being parts of the articles of heading No. 84.84, 85.44, 85.45, 85.46 or 85.47) are to be classified according to the following rules:—
  - (a) Farts which are goods included in any of the headings of Chapter 84 or Chapter 85 (other than heading Nos. 84.85 and 85.48) are in all cases to be classified in their respective headings.
  - (b) Other parts, if suitable for use solely or principally with a particular kind of machine, or with a number of machines of the same heading (including a machine of heading No. 84.79 or heading No. 85.43) are to be classified with the machines of that kind. However, parts which are equally suitable for use principally with the goods of heading Nos. 85.17 and 85.25 to 85.28 are to be classified in heading No. 85.17.
  - (c) All other parts are to be classified in heading No. 84.85 or heading No. 85.48.
- 3. Unless the context otherwise requires, composite machines consisting of two or more machines fitted together to form a whole and other machines adapted for the purpose of performing to or more complementary or alternative functions are to be classified as if consisting only of that component or as being that machine which performs the principal function.
- 4. Where a machine (including a combination of machines) consists of individual components (whether separate or interconnected by piping, by transmission devices, by electric cables or by other devices) intended to contribute together to a clearly defined function covered by one of the headings in Chapter 84 or Chapter 85, then the whole falls to be classified in the heading appropriate to that function.
- 5. For the purposes of these Notes, the expression 'machine' means any machine, machinery, plant, equipment, apparatus or appliance cited in the headings of Chapter 84 or Chapter 85.

# Nuclear reactors, Boilers, Machinery and mechanical appliances; parts thereof

#### Notes

- 1. This Chapter does not cover:—
  - (a) Millstones, grindstones or other articles of Chapter 68;
  - (b) Appliances or machinery (for example, pumps) or parts thereof, of ceramic material (Chapter 69);
  - (c) Laboratory glassware (heading No. 70.12); machinery, appliances or other articles for technical uses or parts thereof, of glass (heading No. 70.14 or 70.15);
  - (d) Articles of sub-heading No. 7308.70 or similar articles of other base metals (Chapters 74 to 76 or 78 to 81);
  - (e) Electro-mechanical tools for working in the hand, of heading No. 85.08 or electro-mechanical domestic appliances of heading No. 85.09; or
  - (f) Hand-operated mechanical floor sweepers, not motorised (heading No. 96.03).
- 2. Subject to the operation of Note 3 to Section XVI, a machine or appliance which answers to a description in one or more of the heading Nos. 84.01 to 84.24 and at the same time to a description in one or other of the heading Nos. 84.25 to 84.80 is to be classified under the appropriate heading of the former group and not the latter.

Heading No. 84.19 does not, however, cover:

- (a) Germination plant, incubators or brooders (heading No. 84.36);
- (b) Grain dampening machines (heading No. 84.37);
- (c) Diffusing apparatus for sugar juice extraction (heading No. 84.38);
- (d) Machinery for heat-treatment of textile yarns, fabrics or made up textile articles (heading No. 84.51); or
- (e) Machinery or plant, designed for mechanical operation, in which a change of temperature, even if necessary, is subsidiary.

Heading No. 84.22 does not cover:

- (a) Sewing machines for closing bags or similar containers (heading No. 84.52); or
  - (b) Office machinery of heading No. 84.72.
- 3. A machine-tool for working any material which answers to a description in heading No. 84.56 and at the same time to a description in heading No. 84.57, 84.58, 4.59, 84.60, 84.61, 84.64 or 84.65 is to be classified in heading No. 84.56.
- 4. Heading No. 84.57 applies only to machine-tools for working metal (other than lathes) which can carry out different types of machining operations either:—
  - (a) by automatic tool change from a magazine or the like in conformity with a machining programme (machining centres),

- (b) by the automatic use, simultaneously or sequentially, of different unit heads working on a fixed position workpiece (unit construction machines, single station),
- (c) by the automatic transfer of the workpiece to different unit heads (multi-station transfer machines).
- 5. (a) For the purposes of heading No. 84.71, the expression 'automatic data processing machines' means:—
  - (i) Digital machines, capable of (1) storing the processing programme or programmes and at least the data immediately necessary for the execution of the programme; (2) being freely programmed in accordance with the requirements of the user; (3) performing arithmetical computations specified by the user; and (4) executing, without human intervention, a processing programme which requires them to modify their execution, by logical decision during the processing run;
  - (ii) Analogue machines capable of simulating mathematical models and comprising at least: analogue elements, control elements and programming elements;
  - (iii) Hybrid machines consisting of either a digital machine with analogue elements or an analogue machine with digital elements.
- (b) Automatic data processing machines may be in the form of systems consisting of a variable number of separately-housed units. A unit is to be regarded as being a part of the complete system if it meets all the following conditions:—
  - (i) it is connectable to the central processing units;
  - (ii) it is specifically designed as part of such a system [it must, in particular, unless it is a power supply unit, be able to accept or deliver data in a form (code or signals) which can be used by the system].

Such units presented separately are also to be classified in heading No. 84.71.

Heading No. 84.71 does not cover machines incorporating or working in conjunction with an automatic data processing machine and performing a specific function. Such machines are classified in the headings appropriate to their respective functions or, failing that, in residual headings.

- 6. Heading No. 84.82 applies, inter alia, to polished steel balls, the maximum and minimum diameters of which do not differ from the nominal diameter by more than 1% or by more than 0.05 mm whichever is less. Other steel balls are to be classified in heading No. 73.08.
- 7. A machine which is used for more than one purpose is, for the purposes of classification, to be treated as if its principal purpose were its sole purpose.

Subject to Note 2 to this Chapter and Note 3 to Section XVI, a machine, the principal purpose of which is not described in any heading or for which no one purpose is the principal purpose is, unless

(4)

the context otherwise requires, to be classified in heading No. 84.79. Heading No. 84.79 also covers machines for making rope or cable (for example, stranding, twisting or cabling machines) from metal

Heading Nos. 85.01 to 85.04 do not apply to goods described in heading Nos. 85.11, 85.12; 85.40
8 <b>4.</b> 81	,	TAPS, COCKS, VALVES AND SIMILAR APPLIANCES FOR PIPES, BOILER SHELLS, TANKS, VATS OR THE LIKE, INCLUDING PRESSURE - REDUCING VALVES AND THERMOSTATICALLY CONTROLLED VALVES		However, metal tank mercury are rectifiers remain classified in heading No. 85.04.  3. Heading No 85.09 covers only the following electro-mechanical machines of the kind commonly used for domestic purposes:
	8481.10	Expansion valves and Solenoid valves for refrigerating and airconditioning appliances and machinery	110%	<ul> <li>(a) Vacuum cleaners, floor polishers, food grin ders and mixers, and fruit or vegetable juice extrac tors, of any weight;</li> </ul>
84.82		—Other BALL OR ROLLER BEA-	12% 15%	(b) Other machines provided the weight of sucl machines does not exceed 20 kg.
84.83	8483.00	RINGS  TRANSMISSION SHAFTS (INCLUDING CAM SHAFTS AND CRANK; SHAFTS) AND CRANKS; BEARING HOUSINGS AND PLAIN SHAFT BEA- RINGS; GEARS AND GEA- RING; BALL SCREWS; GEAR BOXES AND OTHER SPEED CHANGERS, IN- CLUDING TORQUE CON- VERTERS; FLYWHEELS AND PULLEYS, INCLU- DING PULLEY BLOCKS; CLUTCHES AND SHAFT	20%	The heading does not, however, apply to fans and ventilating or recycling hoods in corporating a fan whether or not fitted with filters (heading No. 84.14), centrifugal cloths-dryers (heading No. 84.21) dish washing machines (heading No. 84.20), house hold washing machines (heading No. 84.50) roller or other ironing machines (heading No. 84.50) or sewing machines heading No. 84.52), electric scissors (heading No. 85.08) or to electro-thermic appliances (heading No. 85.16).  4. For the purposes of heading No. 85.34 'printed circuits' are circuits obtained by forming on an

insulating base, by any printing process (for example, embossing, plating-up, etching) or by the 'film circuit' technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected according to a pre-established pattern, other than elements which can produce, rectify, modulate or amplify an electrical signal (for example, semi-conductor elements).

The terms 'printed circuits' does not cover circuits combined with elements other than those obtained during the printing process. Printed circuits may however, be fitted with non-printed connecting elements.

Thin-or thick-film circuits comprising passive and active elements obtained during the same technological process are to be classified in heading No. 85.42.

- 5. For the purposes of heading Nos. 85.41 and 85.42:
  - (a) "Diodes, transistors and similar semi-conductor devices" are semi-conductor devices the operation of which depends on variations in resistivity on the application of an electric field;
  - (b) "Electronic integrated circuits and micro-assemblies" are:
    - (i) Monolithic integrated circuits in which the circuit elements (diodes, transitors, resistors, capacitors, interconnections, etc.) are created in the mass (essentially) and on the surface of a semi-conductor material (doped silicon, for example) and are inseparably associated;
    - (ii) Hybrid integrated circuits in which passive elements (resistors, capacitors, interconnections, etc.), obtained by thin-or thick-film technology, and active elements (diodes, transistors, monolithic integrated circuits, etc., obtained by semi-conductor technology, are combined to all intents and purposes indivisibly, on a single insulating substrate (glass, ceramic, etc.). These circuits may also include discrete components;
    - (iii) Microassemblies of the moulded module, micromodule or similar types, consisting of discrete, active or both active and passive components which are combined and interconnected.

For the classification of the articles defined in this Note, heading Nos. 85.41 and 85.42 shall take precedence over any, other heading in the Schedule which might cover them by reference to, in particular, their function.

6. Records, tapes and other media of heading No. 85.24 remain classified in those headings, whether or not they are cleared with the apparatus for which they are intended.

#### SECTION XVII

# Vehicles, aircraft, vessels and associated transport equipment

#### Notes

- 1. This Section does not cover articles of heading No. 95.01, 95.03 or 95.08, or bobslenghs, toboggans and the like of heading No. 95.06.
- 2. The expressions "parts" and "parts and accessories" do not apply to the following articles, whether or not they are identifiable as for the goods of this Section:
  - (a) Joints, washers and the like of any material (classified according to their constituent material or in heading No. 84.84) or other articles of vulcanised rubber other than hard rubber (heading No. 40.17);
  - (b) Parts of general use, as defined in Note 2 to Section XV, of base metal (Section XV), or similar goods of plastics (Chapter 39);
    - (c) Articles of Chapter 82 (tools);
    - (d) Articles of heading No. 83.15;
  - (e) Machines and apparatus of heading Nos. 84.01 to 84.79, and parts thereof; articles of heading No. 84.81 or 84.82 and, provided they constitute integral parts of engines or motors, articles of heading No. 84.83;
  - (f) Electrical machinery and equipment (Chapter 85);
    - (g) Articles of Chapter 90;
    - (h) Articles of Chapter 91;
    - (ij) Arms (Chapter 93);
  - (k) Lamps and lighting fittings of heading No. 94.05;
  - (l) Brushes of a kind used as parts of vehicles (heading No. 96.03).
- 3. References in Chapters 86 to 88 to 'parts' or 'accessories' do not apply to parts or accessories which are not suitable for use solely or principally with the articles of those Chapters. A part or accessory which answers to a description in two or more of the headings of those Chapters is to be classified under that heading which corresponds' to the principal use of that part or accessory.
- .4 Aircraft specially constructed so that they can also be used as road vehicles are classified as aircraft.

Amphibious motor vehicles are classified as motor vehicles.

- 5. Air-cushion vehicles are to be classified within this Section with the vehicles to which they are most akin as follows:—
  - (a) In Chapter 86 if designed to travel on a guide-track (hovertrains);

(1)	<b>(2)</b>	(3)	(4)

- (b) In Chapter 87 if designed to travel over land or over both land and water;
- (c) In Chapter 89 if designed to travel over water, whether or not able to land on beaches or landing-stages or also able to travel over ice.

Parts and accessories of air-cushion vehicles are to be classified in the same way as those of vehicles of the heading in which the aircushion vehicles are classified under the above provisions.

Hover train track fixtures and fittings are to be classified as railway track fixtures and fittings, and signalling, safety or traffic control equipment for hover-train transport systems as signalling, safety or traffic control equipment for railways.

#### CHAPTER 86

Railway or tramway locomotives, rolling-stock and parts thereof; Railway or tramway track fixtures and fittings and parts thereof; Mechanical (including electro-mechanical) traffic signalling equipment of all kinds

#### Notes

- 1. This Chapter does not cover:
- (a) Railway or tramway sleepers of wood or of concrete, or concrete guide-track sections for hover-trains (Chapter 44 or 68);
- (b) Railway or tramway track construction material of iron or steel of heading No. 73.02; or
- (c) Electrical signalling, safety or traffic control equipment of heading No. 85.30.
- 2. Heading No. 86.07 applies, inter alia, to:
- (a) Axles, wheels, wheels sets (running gear), metal tyres, hoops and hubs and other parts of wheels;
- (b) Frames, underframes, bogies and bisselbogies;
  - (c) Axle boxes; brake gear;
- (d) Buffers for rolling-stock; hooks and other coupling gear and corridor connections:
  - (e) Coachwork.
- 3. Subject to the provisions of Note 1 above, heading No. 86.08 applies, inter alia, to:
  - (a) Assembled track, turntables, platform buffers, loading gauges;
  - (b) Semaphores, mechanical signal discs level crossing control gear, signal and point controls, and other mechanical (including electro-mechanical) signalling, safety or traffic control equipment, whether or not fitted for electric lighting, for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields.

#### SECTION XVIII

Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; clocks and watches; musical instruments; parts and accessories thereof

#### CHAPTER 90

Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof

### Notes

- 1. This Chapter does not cover:
- (a) Articles of a kind used in machines, appliances or for other technical uses, of vulcanised rubber other than hardened rubber (Chapter 40), of leather or of composition leather (Chapter 42) or of textile material (Chapter 59);

- (b) Refractory goods of Chapter 69; ceramic wares for laboratory, chemical or other technical uses, of Chapter 69;
- (c) Glass mirrors, not optically worked, of Chapter 70, or mirrors of base metal or of precious metal, not being optical elements (heading No. 83.15 or Chapter 71);
- (d) Goods of heading No. 70.04, 70.05, 70.08, 70.11 or 70.12;
- (e) Parts of general use, as defined in Note 2 to Section XV, of base metal (Section XV) or similar goods of plastics (Chapter 39);
- (f) Pumps incorporating measuring devices, of heading No. 84.13; weight-operated counting and checking machinery, or separately presented weights for balances (heading No. 84.23); lifting or handling machinery (heading Nos. 84.25 to 84.28); paper or paperboard cutting machines of all kinds (heading No. 84.41); fittings for adjusting work or tools on machine-tools, of heading No. 84.66, including fittings with optical devices for reading the scale (for example, 'optical' dividing heads) but not those which are in themselves essentially optical instruments (for example, alignment telescopes); calculating machines (heading No. 84.70); valves and other appliances (heading No. 84.81);
- (g) Searchlights or spotlights of a kind used for cycles or motor vehicles (heading No. 85.12); portable electric lamps of heading No. 85.13; cinematographic sound recording, reproducing or re-recording apparatus (heading No. 85.19 or 85.20); sound-heads (headings No. 85.22); radar apparatus, radio navigational aid apparatus or radio remote control apparatus (heading No. 85.26); sealed beam lamp units of heading No. 85.39; optical fibre cables of heading No. 85.44;
- (h) Searchlights or spotlights of heading No. 94.05;
  - (i) Articles of Chapter 95;
- (j) Capacity measures, which are to be classified according to their constituent material; or
- (k) Spools reels or similar supports (which are to be classified according to their constituent material, for example, in Chapter 39 or Section XV).
- 2. Subject to Note 1 above, parts and accessories for machines, apparatus, instruments or articles of this Chapter are to be classified according to the following rules:—
  - (a) Parts and accessories which are goods included in any of the headings of this Chapter or of Chapter 84.85 or 91 (other than heading No. 84.85, 85.48 or 90.33) are in all cases to be classified in their respective headings;
  - (b) Other parts and accessories, if suitable for use solely or principally with a particular kind of machine, instrument or apparatus, or with a number of machines, instruments or apparatus of the same heading (including a machine, instrument or apparatus of heading No. 90.10, 90.13 or 90.31) are to be classified with the machines, instruments or apparatus of that kind;

- (c) All other parts and accessories are to be classified in heading No. 90.33.
- 3. The provisions of Note 4 to Section XVI apply also to this Chapter.
- 4. Heading No. 90.05 does not apply to telescopic sights for fitting to arms, periscopic telescopes for fitting to submarines or tanks, or to telescopes for machines, appliances, instruments or apparatus of this Chapter or Section XVI; such telescopic sights and telescopes are to be classified in heading No. 90.13.
- 5. Measuring or checking optical instruments, appliances or machines which, but for this Note, could be classified both in heading No. 90.13 and in heading No. 90.31 are to be classified in heading No. 90.31.
  - 6. Heading No. 90.32 applies only to:
  - (a) Instruments and apparatus for automatically controlling the flow, depth, pressure or other variables of liquids or gases, or for automatically controlling temperature, whether or not their operation depends on an electrical phenomenon which varies according to the factor to be automatically controlled; and
  - (b) Automatic regulators of electrical quantities, and instruments or apparatus for automatically controlling non-electrical quantities the operation of which depends on an electrical phenomenon varying according to the factor to be controlled.

- (g) Articles of Chapter 85, not yet assembled together or with other components into watch or clock movements or into articles suitable for use solely or principally as parts of such movements (Chapter 85).
- 2. Heading No. 91.01 covers only watches with case wholly of precious metal clad with precious metal, or of the same materials combined with natural or cultured pearls, or precious or semi-precious stones (natural, synthetic or reconstructed) of Chapter 71. Watches with case of base metal inlaid with precious metal fall in heading No. 91.02.
- 3. For the purposes of this Chapter, the expression "watch movements" means devices regulated by a balance-wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such watch movements shall not exceed 12 mm in thickness and 50 mm in width, length or diameter.
- 4. Except as provided in Note 1, movements and other parts suitable for use both in clocks or watches and in other articles (for example, precision instruments) are to be classified in this Chapter.

# Musical instruments: Parts and accessories of such articles Notes

- 1. This Chapter does not cover:
- (a) Parts of general use, as defined in Note 2 to Section XV, of base metal (Section XV), or similar goods of plastics (Chapter 39);
- (b) Microphones amplifiers, loud-speakers, head-phones, switches, stroboscopes and other accessory instruments, apparatus or equipment of Chapter 85 or 90, for use with but not incorporated in or housed in the same cabinet as instruments of this Chapter;
- (c) Toy instruments or apparatus (heading No. 95.03);
- (d) Brushes for cleaning musical instruments (heading No. 96.03); or
- (e) Spools, reels or similar supports (which are to be classified according to their constituent material: for example Chapter 39, Section XV).
- 2. Bows and sticks and similar devices used in playing the musical instruments of heading No. 92.02 or heading No. 92.06 presented with such instruments in numbers normal thereto and clearly intended for use therewith, are to be classified in the same heading as the relative instruments.

Cards, discs and rolls of heading No. 92.09 presented with an instrument are to be treated as separate articles and not as forming a part of such instrument.

### Notes

1. This Chapter does not cover:

SWORDS,

SIMILAR PARTS T

93.07 9307.00

(a) Pneumatic or water mattresses, pillows of cushions, of Chapter 39, 40 or 63;

- (b) Mirrors designed for placing on the floor or ground [for example, cheval-glasses (swing-mirrors)] of heading No. 70.06; articles covered by heading No. 70.10;
  - (c) Articles of Chapter 71;
- (d) Parts of general use as defined in Note 2 to Section XV, of base metal (Section XV), or similar goods of plastics (Chapter 39), or safes Chapter 83;
- (e) Furniture specially designed as parts of refrigerators of heading No. 84.18; furniture specially designed for sewing machines (heading No. 84.52);
  - (f) Lamps and lighting fittings of Chapter 85;
- (g) Furniture specially designed as parts of apparatus of heading No. 85.18 (heading No. 85.18), of heading Nos. 85.19 to 85.21 (heading No. 8522) or of heading Nos. 85.25 to 85.28 (heading No. 85.29);
  - (h) Articles of heading No. 87.14;
- (i) Dentists' chairs incorporating dental appliances of heading No. 90.18 or dentists' spittoons (heading No. 90.18);
- (j) Articles of Chapter 91 (for example, clocks and clock cases); or
- (k) Toy furniture or toy lamps or lighting fittings (heading No. 95.03), billiard tables and other furniture specially constructed for games (heading No. 95.04), furniture for conjuring tricks or decorations (other than electric garlands) such as Chinese lanterns (heading No. 95.05).
- 2. The articles (other than parts) referred to in heading Nos. 94.01 to 94.03 are to be classified in those headings only if they are designed for placing on the floor or ground.

The following are, however, to be classified in the above-mentioned headings even if they are designed to be hung, to be fixed to the wall or to stand one on the other:

- (a) Cupboards, bookcases, other shelved furniture and unit furniture;
  - (b) Seats and beds.
- 3. (a) In heading Nos. 94.01 to 94.03 references to parts of goods do not include references to sheets or slabs (whether or not cut to shape but not combined with other parts) of glass (including mirrors), marble or other stone or of any other material referred to in Chapter 68 or 69.
- (b) Goods described in heading No. 94.04, cleared separately, are not to be classified in heading No. 94.01, 94.02 or 94.03 as parts of goods.
- 4. For the purposes of heading No. 94.06, the expression 'prefabricated buildings' means buildings which are finished in the factory or put up as elements, cleared together, to be assembled on site, such as housing or work site accommodation, offices, schools, shops, sheds, garages or similar buildings.

# Toys, games and sports requisites; parts and accessories thereof

#### Notes

- 1. This Chapter does not cover:
  - (a) Christmas tree candles (Chapter 34);
- (b) Fireworks or other pyrotechnic articles of heading No. 36.02;
- (c) Yarns, monofilament, cords or gut or the like for fishing, cut to length but not made up into fishing lines, of Chapter 39, Chapter 42 or Section XI;
- (d) Sports bags or other containers of Chapter 42 or 43;

- (e) Sports clothing or fancy dress, of textiles, of Chapter 61 or Chapter 62;
- (f) Textile flags or bunting, or sails for boats, sailboards or land craft, of Chapter 63;
- (g) Sports footwear (other than skating boots with ice or roller skates attached) of Chapter 64, or sports headgear of Chapter 65;
- (h) Walking sticks, whips, riding-crops or the like or parts thereof (heading No. 66.02);
- (i) Unmounted glass eyes for dolls or other toys, of Chapter 70;
- (j) Parts of general use, as defined in Note 2 to Section XV, of base metal (Section XV) or similar goods of plastics (Chapter 39);
  - (k) Bells, gongs or the like of Chapter 83;
- (1) Electric motors (heading No. 85.01), electric transformers (heading No. 85.04) or radio remote control apparatus (heading No. 85.26);
- (m) Sports vehicles (other than bobsleighs, toboggans and the like) of Section XVII;
  - (n) Children's bicycles (heading No. 87.12);
- (o) Sports craft such as canoes and skiffs (Chapter 89), or their means of propulsion (Chapter 44 for such articles made of wood);
- (p) Spectacles, goggles or the like, for sports or outdoor games (heading No. 90.04);
  - (q) Decoy calls or whistles (heading No. 92.08);
  - (r) Arms or other articles of Chapter 93;
- (s) Electric garlands of all kinds (heading No. 94.05); or
- (t) Racket strings, tents or other camping goods, or gloves (classified according to their constituent material).
- 2. This Chapter includes articles in which natural or cultured pearls, precious or semi-precious stones (natural, synthetic or reconstructed), precious metal or metal clad with precious metal constitute only minor contituents.
- 3. Subject to Note 1 above, parts and accessories which are suitable for use solely or principally with articles of this Chapter are to be classified with those articles.
